1909.

REPORT.

During the quarter ending 31st March 1909 there were registered in Scotland the births of 32,373 living children, the deaths of 21,468 persons, and 7111 marriages. The births are 1762 more than the births registered in the previous quarter, but 130 fewer than those registered in the first quarter of last year. The deaths are 3450 more than those registered in the previous quarter, but 2529 fewer than those registered in the first quarter of last year. The marriages are 24 fewer than those registered in the previous quarter, and 480 fewer than those registered in the first quarter of last year. Compared with the average number of births, deaths, and marriages registered in the first quarter of the last ten years, those averages being corrected for increase of population, the number of births is 1719 less, the number of deaths is 2218 less, and the number of marriages 619 less.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts and Divisions during the Quarter ending 31st March 1909, with their Proportion to the Population; also the Illegitimate Births and their Proportion to the Total Births.

BIRTHS.

The total number of births registered in the quarter was 32,373, and for that number the equivalent annual birth-rate is 26·9 per thousand of the estimated population, a rate which is 1·7 above that for the previous quarter, the fourth of the year 1908, but is 0·1 below that for the corresponding quarter, the first quarter, of last year, and 1·4 below the mean of the birth-rates of the previous ten first quarters. It is 0·1 more than the birth-rate for the first quarter of 1907, but less than that for any other previous first quarter.

The birth-rate for the quarter ranged from 29·6 in the Large Town Registration Districts, to 18·2 in the Insular-Rural Districts. In the Small Town Districts it was 28·3, in the Principal Town Districts 26·8, and in the Mainland-Rural Districts 25·1. Compared with the birth-rates for the corresponding quarter of last year, those of the Principal, Large and Small Town Districts and of the Insular-Rural Districts, each show a decline, but that of the Mainland-Rural Districts shows an increase.

The birth-rates of the divisions of the counties ranged from 29·4 in the South-Western, to 19·0 in the Northern. In the West-Midland it was 27·7; in the East-Midland, 26·4; in the North-Eastern, 25·3; in the South-Eastern, 24·9; in the Southern, 22·3; and in the North-Western, 19·4.

In the Eight Principal Towns the birth-rate ranged from 28·3 in Glasgow and Dundee, to 21·3 in Edinburgh. In Greenock, it was 27·3; in Leith, 26·7; in Aberdeen, 25·9; in Paisley, 25·3; and in Perth, 24·3. Compared with the birth-rates for the first quarter of last year, those of Glasgow, Edinburgh, Dundee, and Perth show an increase, while those of Aberdeen, Paisley, Leith, and Greenock show a decrease.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland during the Quarter ending 31st March 1909.

Counties.	Per Cent.	Counties.	Per Cent.	Counties.	Per Cent.
Shetland	4·9	Forfar	9·0	Lanark	6·1
Orkney	6·1	Perth	7·9	Linlithgow	5·1

Inverness	9·4	Stirling	5·0	Peebles	6·8
Nairn	8·3	Dumbarton	4·9	Selkirk	7·3
Elgin	13·1	Argyll	7·1	Roxburgh	11·2
Banff	16·1	Bute	8·0	Dumfries	13·5
Aberdeen	12·0	Renfrew	4·4	Kirkcudbright	11·4
Kincardine	11·1	Ayr	5·5	Wigtown	16·2

Of the 32,373 children whose births were registered during the quarter, 2264, or 7·0 per cent., were illegitimate. This illegitimate rate is 0·6 above that for the previous quarter, and 0·5 above that for the corresponding quarter of last year. In the groups of registration districts the illegitimate rate ranged from 9·1 per cent. in the Mainland-Rural Districts, to 5·9 in the Small Town Districts. In the Insular-Rural Districts it was 7·0 per cent., in the Principal Town Districts it was 6·9 per cent., and in the Large Town Districts 6·4. In the divisions of the counties this rate ranged from 13·1 in the Southern, to 5·3 in the West-Midland. In the North-Eastern it was 12·4; in the Northern and East-Midland, 7·2; in the South-Eastern, 7·0; in the North-Western, 6·8; and in the South-Western, 5·8. In the counties this rate ranged from 16·2 in Wigtown, 16·1 in Banff, 15·2 in Kinross, 13·5 in Dumfries, and 13·1 in Elgin,

to 2.0 in Sutherland, 4.3 in Ross and Cromarty, 4.4 in Renfrew, and 4.9 in Shetland and Dumbarton. In eleven counties this rate exceeded 10 per cent.; in seventeen counties it was between 5 and 10 per cent.; in five counties it was less than 5 per cent.

Of the 32,373 children whose births were registered during the quarter, 16,501 were male, and 15,872 female. The ratio of male to female children was thus 104·0 to 100.

The average number of births registered daily in Scotland in January was 350; in February, 349; and in March, 380.

The birth-rate for the quarter in England and Wales was 26·0, which is 0·9 lower than the Scottish birth-rate for the quarter.

DEATHS.

The deaths registered during the quarter numbered 21,468, and for that number the equivalent annual death-rate is 17·9 per thousand of the estimated population. This death-rate is 3·1 above that for the previous quarter, but is 2·1 below that for the first quarter of last year, and is 1·8 less than the mean of the death-rates for the first quarter of the previous ten years. It is 0·3 above the death-rate for the first quarter of 1906, and 0·4 above the death-rate for the first quarter of 1896, but less than that for all other previous first quarters.

In the groups of registration districts the death-rate for the quarter ranged from 18·7 in the Large Town Districts, to 16·6 in the Small Town Districts. In the Principal Town Districts it was 18·5, in the Mainland-Rural Districts, 17·2, and in the Insular-Rural Districts, 16·8. Compared with the death-rates for the first quarter of the previous year, those of the Principal, Large, and Small Town, and Mainland-Rural Districts all show a decline, but that of the Insular-Rural Districts shows no change.

In the divisions of the counties the death-rate for the quarter ranged from 19·4 in the East-Midland, to 16·1 in the West-Midland. In the Southern, it was 18·6; in the Northern, 18·4; in the North-Eastern, 17·8; in the South-Western, 17·8; in the South-Eastern, 17·5; and in the North-Western, 17·1. Compared with the death-rates for the corresponding quarter of last year, that of the Northern shows an increase, but these of the other divisions all show a decrease.

The death-rate for the quarter in the eight Principal Towns ranged from 23·1 in Dundee, to 15·2 in Leith. In Paisley it was 20·6; in Perth, 20·2; in Glasgow, 19·9; in Aberdeen, 19·1; in Greenock, 18·7; and in Edinburgh, 18·2. In Glasgow, Leith, Greenock, and Perth the death-rate for this quarter was less than that for the first quarter of last year, but in Edinburgh, Dundee, Aberdeen, and Paisley the death-rate for this quarter was higher than that for the first quarter of last year.

Of the total deaths registered in Scotland during the quarter, 10,615 were of males, and 10,853 of females.

The average number of deaths registered daily in January was 220, in February 234, and in March 261.

The death-rate for the quarter in England and Wales was 18·2, which is 0·3 more than the Scottish death-rate for the quarter.

MARRIAGES.

Marriages registered in Scotland during the quarter numbered 7111. The equivalent annual marriage-rate is 5·9, a rate which is the same as that for the previous quarter, but is 0·4 less than the marriage-rates for the first quarter of last year, and 0·5 less than the mean of the marriage-rates for the first quarter of the previous ten years. It is lower than the marriage-rates for all first quarters since 1855, with the exception of those for 1858 and 1895, which were the same as that for this quarter, 5·9.

In the groups of registration districts the marriage-rate for the quarter ranged from 6·3 in the Principal and Large Town Districts, to 4·8 in the Mainland-Rural and Insular-Rural Districts. In the Small Town Districts it was 6·0. In the divisions of the counties it ranged from 6·4 in the East-Midland, to 5·0 in the North-Western. In the Northern it was 6·2, in the South-Western 6·2, in the South-Eastern 5·7, in the Southern 5·6, in the North-Eastern 5·4, and in the West-Midland 5·2. In the Eight Principal Towns the marriage-rate of the quarter ranged from 7·4 in Dundee, to 5·3 in Greenock. In Glasgow it was 6·8; in Perth, 6·7; in Paisley, 6·4; in Aberdeen, 6·2; in Leith, 5·8; and in Edinburgh, 5·7.

The average number of marriages registered daily in January was 120, in February 58, and in March 57.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 31st March 1909.

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As 38 per cent. of the population of Scotland live in eight of the principal towns, namely, Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in them during the quarter are a fairly good indication of the causes of death prevalent generally in Scotland during the period. Details of the causes of death in the remainder of Scotland during the quarter are not yet available.

The estimated aggregate population of these eight towns is 1,864,194. Deaths registered in them during the quarter numbered 8978, and for this the equivalent annual death-rate is 19·5, a rate which is 3·9 above that for the previous quarter, but 1·7 below that for the first quarter of 1908. The death-rate in these towns in January was 17·7, in February 19·1, and in March 21·8.

Deaths from the acutely infectious diseases numbered 850; of them 226 were registered in January, 265 in February, and 359 in March. The death-rate for the quarter from these causes is 1·85 per thousand; that for January 1·43, that for February 1·85, and that for March 2·27. The corresponding death-rate for the previous quarter was 0·98, and that for the corresponding quarter of last year 2·92. The 850 deaths include 582 from whooping-cough, 122 from diphtheria, 64 from scarlet fever, 34 from enteric fever, 27 from cerebro-spinal meningitis, and 21 from measles. Compared with the returns for the previous quarter, deaths from whooping-cough are 371 more, from diphtheria 13 more, from enteric fever 6 more, and from cerebro-spinal meningitis and measles each 4 more, while those from scarlet fever are of the same number. The equivalent annual death-rate from whooping-cough is 127 per 100,000, from diphtheria 27, from scarlet fever 14, from enteric fever 7, from cerebro-spinal meningitis 6, and from measles 5.

Deaths from diarrhoeas, including those certified as due to enteritis and gastro-enteritis, numbered 186; they are 136 fewer than were registered in the previous quarter, and 4 fewer than were registered in the corresponding quarter of last year. The equivalent annual death-rate from these causes is 40 per 100,000, a rate which in January was 45, in February 37, and in March 39. In the previous quarter this rate was 70 per 100,000, and in the first quarter of last year 41.

Deaths ascribed to tuberculosis during the quarter numbered 1030, which is 147 more than in the previous quarter, but 67 fewer than in the corresponding quarter of last year. The equivalent annual death-rate amounts to 224 per 100,000, a rate which in January was 200, in February 224, and in March 248, and which in the previous quarter was 191, and in the first quarter of last year 239. Of these deaths 651 were ascribed to phthisis, the death-rate from that disease being 142 per 100,000, a rate which is 22 above that for the previous quarter, but 14 below that for the first quarter of last year. The death-rate from phthisis in January was 127, in February 140, and in March 158.

Deaths from malignant disease numbered 502; they are 5 fewer than in the previous quarter, but 30 more than in the corresponding quarter of last year. The equivalent annual death-rate from this cause amounts to 109 per 100,000. Of these deaths 285 were ascribed to carcinoma, 25 to sarcoma, and 192 to other or unspecified form of cancer.

Deaths from pneumonia registered during the quarter numbered 1051, 285 being registered in January, 317 in February, and 449 in March. These deaths are 272 more than those registered in the previous quarter, but 126 fewer than those registered in the corresponding quarter of last year. The equivalent annual death-rate is 229 per 100,000, a rate which in January was 180, in February 222, and in March 284, and which is 61 above that for the previous quarter, but 28 below that of the first quarter of last year.

Deaths from bronchitis numbered 871, and the equivalent annual death-rate is 190 per 100,000. These deaths are 324 more than those registered in the previous quarter, but 81 fewer than those registered in the first quarter of last year. Of them 250 were registered in January, 251 in February, and 370 in March. The death-rate from bronchitis in January was 158, in February 176, and in March 234.

Deaths from diseases and accidents of pregnancy, including those ascribed to puerperal septic conditions, numbered 67; they are 14 more than in the previous quarter, but 3 fewer than in the first quarter of last year.

Deaths of children of less than one year old numbered 1732. The births in the eight towns during the quarter numbered 12,125, and thus the infantile mortality rate for the quarter was 143 per thousand births. This rate is 7 above that for the previous quarter, but 17 below that for the first quarter of last year. The infantile mortality rate for the quarter in these eight towns ranged from 193 in Dundee, to 80 in Perth, and 83 in Leith. In Aberdeen it was 186; in Paisley, 143; in Glasgow, 138; in Edinburgh, 135; and in Greenock, 111.

Of the total deaths registered in these towns during the quarter, 3004, or 33·5 per cent., were of children of less than 5 years old, and 2642, or 29·4 per cent., were of persons of over sixty. The former are 599 more than in the previous quarter, but 650 fewer than in the first quarter of last year. The latter are 692 more than in the previous quarter, and 42 more than in the first quarter of last year.

Deaths from violence numbered 289; they are 8 fewer than in the previous quarter, and 60 fewer than in the corresponding quarter of last year. Of them 1 was ascribed to homicide, 23 to suicide, and 265 to accident.

WEATHER.

The Meteorological Returns which appear in the Registrar-General's Monthly Reports, and which refer more particularly to observations made in the eight Principal Towns enumerated above, show that *January* was characterised by a high mean pressure; a somewhat high mean temperature, with a mean daily range about the average; a slightly high mean rainfall; and a considerable excess of South-Westerly winds. *February* was characterised by a very high mean pressure; a fractionally high mean temperature, with a slightly high mean daily range; a low mean rainfall; and a slight excess of Northerly winds. *March* was characterised by a very low mean pressure; a very low mean temperature, with a low mean daily range; a high mean rainfall; and a very large excess of winds from between N. and S.E.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·904 inches in January, 30·083 inches in February, and 29·581 inches in March. The mean temperature for the quarter was 37°·9, or 0·4 below the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in January was 38°·6, in February 38°·5, and in March 36°·5. The absolutely highest temperature recorded in January was 56°, in February 56°, and in March 57°. The absolutely lowest temperature recorded in January was 18°, in February 16°, and in March 1°. The mean number of days on which rain fell was 20 in January, 12 in February, and 19 in March; the mean amount collected was 4·22 inches in January, 2·03 inches in February, and 3·42 inches in March.

[illegible]

N. N. B.—Districts containing Parliamentary or Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals : thus—CARLUKE. An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more, or parts of more than one Parish. The component parts of these Districts will be found on page 45. A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name. Return not received.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING
TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
2. Orkney.		
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
3. Caithness.		
37b	Keiss	Parts of Canisbay and Wick.
5. Ross and Cromarty.		
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross, and part of Gairloch
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs, and part of Uig.
6. Inverness.		
92b	Cannich	Parts of Kilmorack and Kiltarity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
8. Elgin.		
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
9. Banff.		
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrines	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
10. Aberdeen.		
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone, and part of Glenmuick.
222b	Millbex	Parts of Fyvie and Monquhitter.
227b	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Fergie.
11. Kincardine.		
266	Nigg	Nigg, and part of Aberdeen.
12. Forfar.		
282	Dundee	Dundee Combination, and part of Mains and Strathmartine.
294b	Kilry	Parts of Glenisla and Lintrathen.
13. Perth.		
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhiddier	Balquhiddier, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meikle	Meikle, and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenandry	Parts of Blair-Athol and Moulin.
14. Fife.		
402	Anstruther-Easter	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457b	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
17. Stirling.		
473	Bonnybridge	Parts of Denny, Dunipace, and Falkirk.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
18. Dumbarton.		
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
19. Argyll.		
504	Ardochattan	Part of Ardochattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnarmurchan, and of Arisaig and Moidart.
506	Ballachulish, etc. ..	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard ..	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan ..	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilhead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardochattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow) ..	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portnahave	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
20. Bute.		
556	Lochranza	Parts of Kilbride and Kilmory.
21. Renfrew.		
559b	Bridge of Weir	Part of Houston and Killellan and of Kilbarchan.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston, and part of Paisley.
22. Ayr.		
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr (Alloway)	Parts of Ayr and Maybole.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
603	Loudoun (Darvel)	Parts of Loudoun and Galston.
610b	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
23. Lanark.		
622	Barony	Part of Glasgow.
626a	Cadder (Eastern district) ..	Parts of Cadder and Glasgow.
626b	Calderhead	Parts of Cambusnethan and Shotts.
644	Glasgow	Parts of Glasgow, Govan Combination, and Rutherglen.
25. Edinburgh.		
685	Edinburgh	Parts of Edinburgh and Colinton.
692	Leith	Leith, and part of Edinburgh.
695b	Neweraighall	Parts of Inveresk and Liberton.
698b	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
29. Selkirk.		
774a	Caddonfoot	Caddonfoot, and part of Innerleithen.
30. Roxburgh.		
787b	Edgerston	Parts of Jedburgh and Southdean.
31. Dumfries.		
813b	Brydekirk	Parts of Annan, Cummertrees, and Hoddon.
890	Holywood	Holywood, and part of Terregles.
853b	Wanlockhead	Part of Sanquhar.
32. Kirkcudbright.		
857b	Bargrennan	Parts of Minnigaff and Penninghame.
862	Corsock Bridge	Parts of Balmacellian, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
33. Wigtown.		
899	Stranraer	Stranraer, and parts of Inch and Leswalt.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

JANUARY, FEBRUARY, MARCH,

1909.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE QUARTER ENDING 31st MARCH 1909.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the Scottish Meteorological Society, and at some additional stations whose returns are included by the courtesy of the Meteorological Office. The total number of contributing stations is 67. For list of Observers, see page 66.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the values at all the contributing stations. That for rainfall does not represent the whole country in a quite satisfactory manner, as stations are more numerous in dry districts than in wet districts: the figures, however, are fairly comparable with the corresponding figures given for former years.

Table II. refers to eight of the principal towns only (*v.* page 7), and is extracted from the Monthly Reports already published by the Registrar General for Scotland.

Mar.	42·1	32·4	37·3	54	19	20	3·57	8	13	11	8	4	2	4	8	4	

And when the figures in Table I. and those of wind-direction in Table II. are compared with the averages for 1856–1905, during the same months, they show the following characteristics and differences:—

JANUARY 1909—

Mean Barometric Pressure, 29·904 inches; greater than the average by 0·101 inch.

Mean Temperature, 38°·6; greater by 1°·3.

Mean Daily Range of Temperature, 9°·1; less by 0°·1.

Rain, Number of Days, 20; greater by 3 days.

Rain, Depth in Inches, 4·22; greater by 0·38 inches.

Wind, Direction of: a 4 days' excess of winds from S.W.

FEBRUARY 1909—

Mean Barometric Pressure, 30·083 inches; greater than the average by 0·237 inch.

Mean Temperature, 38°·5; greater by 0°·3.

Mean Daily Range of Temperature, 10°·4; greater by 0°·2.

Rain, Number of Days, 12; less by 3 days.

Rain, Depth in Inches, 2·03; less by 1·04 inch.

Wind, Direction of: a 2 days' excess of winds from N. and N.W.

MARCH 1909—

Mean Barometric Pressure, 29·581 inches; less than the average by 0·228 inch.

Mean Temperature, 36°·5; less by 3°·1.

Mean Daily Range of Temperature, 10°·5; less by 1°·6.

Rain, Number of Days, 19; greater by 3 days.

Rain, Depth in Inches, 3·42; greater by 0·51 inch.

Wind, Direction of: a 9 days' excess of winds from between N. and S.E.

JANUARY 1909.

Hence the month of JANUARY 1909 was characterised by a high mean pressure; a rather high mean temperature, with an average mean daily range; a slightly high mean rainfall; and a considerable excess of South-Westerly winds.

The mean pressure was 29.904 ins., or 0.101 in. above the normal. The barometer was high during the first week or so, and from 19th onwards, whilst from 10th to 18th pressure was low and very irregular. The monthly range was rather large, the sea-level extremes at Leith being 30.574 ins. on 4th, and 28.661 ins. on 14th.

The mean temperature was 38°·6, or 1°·3 above the normal. Many stations practically agreed with their averages. Mild weather was experienced with South-Westerly winds during the first six days, and in many districts the warmest day of the month fell between 1st and 4th, the actual highest reading being 56° at Corstorphine on 2nd, and at Wick and Dunrobin on 4th. After a few days of variable temperature, a very cold spell, with winds from N.W., occurred from about 12th to 16th, and on 12th the sheltered thermometer at Balmoral fell to 18°, whilst at Crathes there was an exposed reading of 9°. On 17th with strong winds from S.W. a rapid rise of temperature took place, that day being in some districts the warmest of the month, whilst in several the 16th had been the coldest. During the last ten days, and especially from 25th to 29th, both days and nights were somewhat cold. The weather was, however, much less severe than that experienced in England at the same time.

The mean rainfall was 4.22 ins., or 10 per cent. above the normal. In the extreme South-East and South-West and along the East Coast from Dundee to the Moray Firth rainfall was below the average; elsewhere there was an excess of varying amount. Heavy falls occurred in the North-West on 1st and 3rd, but as a rule the opening days of the month were fine. In most districts the greater part of the month's total was registered between 13th and 17th, when precipitation consisted largely of snow and sleet, though much the heaviest falls took place with a rainstorm from South-West on 17th. At Stronvar the aggregate for these five days was as much as 7 ins., with fully 3 ins. on 17th, on which day Achnacarry also had 3 ins., Fort William and Auchencowie (Bannockburn) 2½ ins., and many widely scattered places, such as Kinlochleven, Greenock and Leadhills about 2 ins. It is noteworthy that from 15th to 17th Aberdeen was rainless and that only nominal amounts were recorded in the extreme South-East and South-West. After 18th there were in most districts many rainless days, but at Baltasound precipitation occurred on every day of the month, at Castlebay on 30 days, and at Stornoway and Fort William on 29 days.

Some wintry weather occurred, and about 7th and 8th stormy, and from 14th to 18th extremely stormy, conditions prevailed. Snow fell rather frequently, and, towards the north, to some depth. Melting snow and heavy rains on 17th caused extensive flooding in some districts, especially in the Tay valley and Strathearn.

Thunderstorms occurred in Shetland on 11th, 17th and 19th, and in Northern and Western districts on varying dates between 6th and 16th.

The registered amounts of sunshine ranged downwards from 63 hours at Crathes and 59 at Aberdeen, and did not differ greatly from the normal.

Auroras observed at Baltasound on 9th, 16th, 19th, 28th, 29th and 30th.

FEBRUARY 1909.

Hence the month of FEBRUARY 1909 was characterised by a very high mean pressure; a fractionally high mean temperature, with a mean daily range about the average; a low mean rainfall; and a slight excess of Northerly winds.

The mean pressure was 30.083 ins., or 0.237 ins. above the normal. The only important disturbances occurred from 2nd to 4th and from 9th to 10th, and during a great part of the month the barometer stood at a high level. At Leith, where the extremes were 30.591 ins. on 13th and 29.261 ins. on 9th, pressure was above 30 inches from 6th–8th, 11th–17th, and 19th–27th.

The mean temperature was 38°·5, or 0°·3 above the normal, being practically the same as that for January. Towards North and West there was a decided temperature excess, amounting at Stornoway to 2°·4, whilst towards South and East the station values were about, or slightly below, their normals. Roughly speaking, temperature was above the average during the first and third weeks, whilst colder weather prevailed during the second week and towards the end of the month. On 2nd and again about 14th rather rapid temperature fluctuations occurred. Thus at Inverness at 9 a.m. on 13th the thermometer stood at 29°, but on the following morning as high as 49°. Lowest temperatures occurred in Orkney and part of Shetland on 1st, but as a rule on 7th, 13th, or on or after 25th, the actual lowest readings being 16° at Kingussie and Leadhills on 13th. Highest readings occurred on 2nd, 3rd or 21st, the actual highest being 56° at Balruddery and Perth on 3rd, and at Kingussie, Duns and Marchmont on 21st.

The mean rainfall was 2.03 ins., or 34 per cent. below the normal, the month being the driest February since 1902. Laudale, Duns and Marchmont had fully their average rainfalls, but in general there was a decided shortage which was most strongly marked towards the North-East, where many stations had less than 1 inch, and Aberdeen, with little more than ½ inch, only 25 per cent. of its normal. On 2nd a remarkable rainstorm affected Western, and, to some extent, central districts. Kinlochquoich registered no less than 6½ ins. in 24 hours, Kinlochleven 5½ ins., Glenquoich, Glendessary and Dalnally 4–5 ins., Laudale 3 ins., Glencarron, Lochbuie and Stronvar 2–3 ins., and wide areas more than 1 inch. On the same day the Eastern seaboard was rainless or nearly so.

On 4th rather heavy falls occurred towards South-East, Marchmont having fully 1 inch. From 11th to 26th the dominant high pressure conditions were associated in most districts with almost continuously fine weather, whilst at Nairn no day from 4th to 26th had as much as one-tenth of an inch of rain.

The high pressure conditions that prevailed during a great part of the month were associated with an almost entire absence of high winds, and gales occurred only at outlying places.

The only station reporting thunder was Wolfelee, on 15th.

Slight visitations of fog were rather frequent in the Firth of Forth.

The distribution of sunshine varied considerably, Inverness, Fort Augustus and Paisley having a decided excess, and Aberdeen and Edinburgh a deficiency. The third week was the sunniest period of the month, except in the Western Islands.

Auroras observed at Baltasound on 3rd, 6th, 13th, 23rd, and at Deerness on 22nd and 23rd.

MARCH 1909.

Hence the month of MARCH 1909 was characterised by a very low mean pressure; a very low mean temperature, with a low mean daily range; a rather high mean rainfall; and a very large excess of winds from between N. and S.E.

The mean pressure was 29·581 ins., or 0·228 in. below the normal. The general distribution was quite abnormal, the mean pressure over Shetland being decidedly higher than that over the South of Scotland, with a resulting gradient favourable for winds from a Northerly point. The barometer at Leith reached 30 ins. only from 10th to 12th, the extremes there being 30·182 ins. on 11th, and 29·115 ins. on 18th.

The mean temperature was 36°·5, or 3°·1 below the normal, the days being 3°·9 and the nights 2°·3 below their respective averages. The month was decidedly colder than any March since 1892, and a March as cold appears to have been experienced during the last 50 years only in 1867, 1883, 1888 and 1892. Temperature during the first week was extremely low. At West Linton on the night of 4th, the sheltered thermometer fell to 1°, and an exposed instrument to -5°, and on the following night shade readings occurred of 5° at Balmoral and 7° at Kingussie and Nairn. The second week and part of the third week were also very cold, whilst about 19th there was a decided rise of temperature, and after that date the nights differed but little from the normal though the days remained cold. A feature of the month was the almost entire absence of moderately high day temperatures. On 22nd Dumfries and Cally reached 57°, but at Leith the absolute maximum was only 48°, and at Montrose only 44°.

The month was abnormal also as regards the distribution of rainfall. The mean of all the contributing stations was 3·42 ins. or 18 per cent. above the normal. There was, however, an entire inversion of the average relationship between East and West. Many Eastern districts had from twice to thrice their normal amounts, whilst towards West and North-West there was a notable deficiency, several stations having less than one-fifth of the average. Fort William had less than $\frac{1}{2}$ in. for the entire month, Oban and Inveraray less than 1 in., and a large part of the West Highlands less than 2 ins., whilst towards the East, Tillypronie had over 7 ins., and Balmoral, Crathes and Duns from 6·7 ins. Edinburgh had thrice its normal amount and there the month was the wettest March since 1862. Early in the month the precipitation consisted largely of snow, and on 7th "rainfalls" exceeding an inch were registered over the North-East of Scotland, Balmoral having as much as 1·96 ins. Again on 24th an Easterly rainstorm visited the S.E. of the country, Edinburgh registering 1½ ins. Rain or snow fell on 29 days at Baltasound, on 25 days or more at many East Coast stations, but at Oban and Fort William on only 9 days. On the West Coast there were considerable spells of rainless weather, Helensburgh recording no rain from 1st to 5th and from 8th to 16th.

Very wintry weather prevailed during a great part of the month, with heavy falls of snow in most districts. The last 10 days or so were characterised by winds from some Easterly point, with very gloomy conditions on the East Coast. On 7th, and at the close of the month, high winds or gales from East or North-East affected Eastern districts.

Thunder at Gordon Castle on 2nd and 10th, and a thunderstorm in Midlothian on the evening of 3rd.

Sunshine was very deficient on the East Coast, but large amounts were recorded in Shetland and the Hebrides. Thus Aberdeen had only 45 hours, or less than half its normal, but Stornoway 127 hours, Castlebay 116, and Baltasound 105.

Coast fog in S.W. on 6th, and in East, North, and South-West between 20th and 24th.

Auroras observed at Baltasound on 8th, 14th, 16th and 23rd, and at Gordon Castle on 19th.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 9 years 1901–1909.

The amount of cloud is estimated on a scale of 0–10, and a day is reckoned as a day of "clear sky" if the average of the estimates at the hours of observation is less than 2, and as an "overcast" day if the average is greater than 8.

REGISTRARS' NOTES.

In compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

2. Orkney.

81. STRONSAY.—Death-rate very high. Of the seven deaths registered, three were of persons aged 81, 88, and 91 years respectively.

33 (1). WESTRAY.—The number of deaths is the lowest on record.

3. Caithness.

41. THURSO.—Of the twenty-two deaths, eleven were of persons aged over 70 years, six of them being aged over 80 years.

4. Sutherland.

46 (1). BONAR.—The number of births registered is phenomenally low.

49 (2). KINLOCHBERVIE.—The death-rate is unusually high. Of the seven persons whose deaths were registered, four were aged over 80 years, two over 70 years, and one 65 years.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

58. APPLECROSS.—The four persons whose deaths were registered were aged 80, 84, 85, and 88 years respectively.

59a. AVOCH.—Of the five deaths which occurred in March, four were of persons whose ages ranged from 69 to 90 years.

71 (1). KINCARDINE.—The female who died in February was aged 100 years.

Insular.

88. STORNOWAY.—The number of deaths registered is considerably below the figure for the corresponding quarter of last year, and for the corresponding quarters of the last five years. Marriages number less than half those registered in the first quarter of 1908.

6. Inverness.

Mainland.

91a. ARDERSIER.—The deaths registered in February were those of four fisherman who lost their lives by the foundering of their boat.

92a (1).—Of the five deaths recorded three were of infants less than three months old, who died of influenza and pneumonia.

95. DAVIOT and DUNLIGHTY.—Of the two persons whose deaths were recorded, one had reached the age of 89.

Insular.

113. NORTH UIST.—The number of deaths is considerably above the corresponding figure for last year.

119. STRATH.—Hooping-cough prevalent, the deaths of two infants resulting therefrom. The principal school was closed for a time.

III. NORTH-EASTERN DIVISION.

8. Elgin.

144 (2). GARMOUTH.—The combined ages of the three females who died amount to 264 years.

9. Banff.

148. BOTRIPHNE.—The ages of the three persons whose deaths were registered were 63, 74, and 83 respectively.

157 (2). GLENLIVET.—Three of the six deaths were of persons whose ages ranged from 78 to 92 years.

10. Aberdeen.

197. FYVIE.—Hooping-cough prevalent. Three of the deaths are due to this disease.

201. GLENMUCK, TULLICH, and GLENGAIRN.—The deaths, three in number, are far below the average for the first quarter of the year. Only twice since the passing of the Registration Act has the corresponding number been lower.

203. INSCH.—Of the six persons whose deaths were recorded, three were above 80, and two above 70 years of age.

208. KILDRUMMY.—Measles prevalent, but no deaths therefrom. The three deaths registered were of persons aged 54, 77, and 78 years respectively.

218. LONGSIDE.—The death-rate among children has been abnormal, nine of the thirteen deaths having been those of children less than three years old.

222a. MILLBREX.—The number of births (two) registered is the lowest on record, and the fact that no deaths have been recorded is almost unprecedented.

225. NEW DEER.—Of the sixteen persons whose deaths were registered, four were aged over 70, four over 80, and one over 90 years. During the first two months of the year scarlatina was very prevalent but of a mild type. No deaths therefrom.

239. SLAINS.—The two persons whose deaths were registered were aged 52 and 67 years respectively.

243. TARVES.—Hooping-cough has been prevalent, and three of the deaths, all of children a few months old, have been due to that cause. The other seven deaths have all been of persons aged over 70, whose average age was 76.

11. Kincardine.

253. BENHOLM.—The deaths are more than double the births in number, the latter being much below the average.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

269. ABERLEMNO.—The recent establishment of a private consumptive sanatorium in the parish may affect the death-rate in the future.

306. LUNDIE.—One of the deaths was due to accidental drowning.

318. RUTHVEN.—One of the deaths registered is that of an unknown woman found dead by the roadside.

321. TANMADICK.—The average age at death is 71 years, the ages ranging from 47 to 96. One death was caused by phosphorus poisoning.

13. Perth.

323. ALYTH.—Of the twenty-one deaths registered, six were of children aged one year or under, and seven of persons aged from 69 to 86 years.

341a. COMRIE.—Of the eight deaths, six were of persons whose ages averaged over 80 years.

376. LOGIERAIT.—Three of the four illegitimate births were those of children belonging to the travelling class who have no fixed residence in the district.

14. Fife.

417 CRAIL.—Seven of the eight deaths were of persons aged 70 years and upwards.

434. KENNOWAY.—Five of the eight females whose deaths were registered were of ages ranging from 79 to 94 years. The oldest of them was the oldest inhabitant in the parish, an unmarried woman, who was born, lived all her life, and died in the same house.

435. KETTLE.—The epidemic of scarlet fever which has prevailed for the last few months has now abated without further fatalities.

455. SALINE.—Two of the five deaths were of persons aged over 80 years.

457*b*. THORNTON.—The number of illegitimate births is due to the presence of Thornton Poor-house.

458*b*. TULLIALLAN.—Of the fifteen deaths, eight were of persons aged from 70 to 86 years.

16. Clackmannan.

468. TILlicOUNTRY.—Of the twenty deaths, seven were of persons whose ages averaged 78 years.

V. WEST-MIDLAND DIVISION.

17. Stirling.

469. AIRTH.—The average ages of the four persons whose deaths were registered was 72 years.

18. Argyll.

Mainland.

526. LOCHGILHEAD.—Of the twenty-six deaths registered, eleven were those of inmates of the County Asylum and three were of inmates of the Combination Poorhouse.

Insular.

539 (1). JURA.—The deaths recorded were those of a brother and sister, who died on the same day. They were aged 90 and 84 years respectively.

VI. SOUTH-WESTERN DIVISION.

21. Renfrew.

567 (2). GOUROCK.—The deaths registered in this district include forty-one which occurred in Greenock Poorhouse and Parochial Asylum, also fifteen in Greenock and District Combination Fever Hospital. There has been an epidemic of typhus fever in Greenock.

22. Ayr.

578 (3). ALLOWAY.—Of the thirty-three deaths registered, twenty-eight were those of inmates of Ayr District Asylum.

589. DREGHORN.—The number of marriages and the number of deaths are the lowest on record for any first quarter since the years 1883 and 1869 respectively.

610*b*. PATNA.—The deaths include three from hooping-cough. Measles of a mild type prevalent.

23. Lanark.

660. WISTON and ROBERTON.—Three of the six deaths were of persons aged 77, 83, and 84 years respectively.

VII. SOUTH-EASTERN DIVISION.

25. Edinburgh.

677. COLINTON.—Of the sixty-one deaths registered, forty-two occurred in Craiglockhart Poor-house.

685 (4). EDINBURGH, ST. GILES.—The only events which show any departure from the average are the marriages, which show a decrease of fifty-two from the corresponding quarter of last year. The decline in irregular marriages accounts for only eleven of the above figure.

26. Haddington.

708. GLADSMUIR.—Several deaths in March were due to the very severe weather.

713. NORTH BERWICK.—The deaths registered are nearly double the number for the corresponding quarter of last year. There was no epidemic to account for this.

722. TRANENT.—The births of twins have been registered on four occasions, and the birth of triplets on one. The total births numbered 77.

27. Berwick.

730. CHIRNSIDE.—Diphtheria prevalent. Two deaths therefrom. Public school closed for a fortnight.

742. GORDON.—The only death registered was caused by accidental drowning.

747. LANGTON.—The deaths registered were of persons aged 61, 72, 84, and 88 years respectively. This number equals the total for the previous two years.

749. LEGERWOOD.—The only death registered was that of a twin child, prematurely born.

28. Peebles.

773*a*. WEST LINTON.—Births registered this past quarter numbered eleven, as compared with none for the previous quarter.

29. Selkirk.

778. SELKIRK.—Of the thirty-two deaths, eighteen were of persons aged upwards of 70 years.

779 (1). YARROW.—The death of the female was due to a van accident.

VIII. SOUTHERN DIVISION.

30. Roxburgh.

785 (2). KIRKTON.—No births and no deaths registered. The district has passed through an

epidemic of measles. School attendance very much affected.

795. LILLIESLEAF.—The three deaths were all of married females, aged 61, 71, and 55 years respectively.

799 (1). MELROSE.—Of the twenty deaths registered, ten occurred in the District Asylum.

807. SPROUSTON.—Of the four deaths registered, three were those of infants.

31. Dumfries.

834. KIRKCONNEL.—Deaths above the average, owing to pulmonary affections amongst young children and infants.

836. KIRKMICHAEL.—The only death registered was that of a woman aged 78 years.

32. Kirkcudbright.

858. BORGUE.—Of the six deaths registered, four were of persons whose ages averaged 84 years.

860. CARSPHAIRN.—The two deaths were of persons over 70 years of age.

33. Wigtown.

890. KIRKMAIDEN.—The epidemic of scarlet fever noted in last Quarterly Return has abated. There have been no new cases.

894. OLD LUCE.—Of the twelve deaths registered, eight were of persons whose ages averaged 72 years, the oldest being 90 years of age, while the remaining four were children whose ages averaged 19 days.

896. PORTPATRICK.—The ages of the five persons whose deaths were registered were 67, 76, 79, 90, and 103 years respectively.

INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.**

* The actual number of Districts is 1079—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

Cramond, . . . 679	Duddingston, 684	Farr, . . . 50	Glenmuick, Tul-lich, etc., 201	Jedburgh, . . . 792

BY NEILL & Co. LTD., BELLEVUE,
And Sold by
OLIVER & BOYD, EDINBURGH.

1909.

REPORT.

During the quarter ending 30th June 1909 there were registered in Scotland the births of 34,671 living children, the deaths of 18,478 persons, and 8171 marriages. Compared with the returns of the previous quarter, the births are 2298 more, the deaths 2991 fewer, and the marriages 1060 more. Compared with the returns of the corresponding quarter of last year, the births are 940 fewer, the deaths 1021 fewer, and the marriages 642 fewer. Compared with the average number of births, deaths, and marriages registered in the second quarter of the previous ten years, those averages being adjusted to allow for the increase of the estimated population, the births are 2470 fewer, the deaths 2294 fewer, and the marriages 846 fewer.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts and Divisions during the Quarter ending 30th June 1909, with their Proportion to the Population; also the Illegitimate Births and their Proportion to the Total Births.

BIRTHS.

The total number of births registered in Scotland during the quarter was 34,671, and for that number the equivalent annual birth-rate is 28·5 per thousand of the estimated population, a rate which is 1·6 above that of the previous quarter, but is 1·1 less than that of the second quarter of last year, 2·1 less than the mean of the birth-rates of the second quarter of the previous ten years, and is the lowest Scottish birth-rate of any second quarter since the institution of national registration. This is the first year in which the birth-rate of the second quarter has fallen below 29.

In the groups of registration districts the birth-rate ranged from 32·4 in the

Large Town Districts, to 17·2 in the Insular-Rural Districts. In the Small Town Districts, it was 30·4, in the Principal Town Districts 27·9, and in the Mainland-Rural Districts 26·9. The birth-rate of the Mainland Rural Districts for the quarter is slightly higher than that of the corresponding rate of last year, but those of the other groups of registration districts are each lower than the birth-rate of the second quarter of last year.

In the divisions of the counties the birth-rate of the quarter ranged from 30·8 in the South-Western, to 19·8 in the North-Western. In the East-Midland it was 28·7; in the West-Midland, 28·0; in the North-Eastern, 27·0; in the South-Eastern, 27·0; in the Southern, 25·1; and in the Northern, 20·9.

The birth-rate of the quarter in the Eight Principal Towns ranged from 31·2 in Greenock, to 22·8 in Edinburgh. In Dundee it was 30·3; in Paisley, 30·0; in Leith, 29·1; in Glasgow, 28·5; in Aberdeen, 25·9; and in Perth, 23·4. The quarterly birth-rate of each of these eight towns is less than the corresponding birth-rate of last year.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland during the Quarter ending 30th June 1909.

Elgin	13·3	Argyll	8·7	Roxburgh	10·0
Banff	12·8	Bute	7·9	Dumfries	9·7
Aberdeen	12·7	Renfrew	4·6	Kirkcudbright	13·0
Kincardine	8·7	Ayr	6·9	Wigtown	13·6

Of the 34,671 births registered during the quarter, 2297, or 6·6 per cent., were illegitimate. The illegitimate births of the quarter are 33 more than those of the previous quarter, and 30 more than those of the corresponding quarter of last year. The illegitimate rate is 0·4 less than that of the previous quarter, but is 0·2 more than that of the corresponding quarter of last year.

The illegitimate rate of the quarter in the groups of registration districts ranged from 8·6 per cent. in the Mainland-Rural Districts, to 5·1 per cent. in the Large Town Districts. In the Insular-Rural Districts it was 7·3, in the Principal Town Districts 6·7, and in the Small Town Districts 5·8. In the divisions of the counties this rate ranged from 12·5 per cent. in the North-Eastern, to 4·7 in the West-Midland. In the Southern it was 11·1; in the Northern, 8·4; in the South-Eastern, 6·3; in the South-Western, 5·8; in the North-Western, 5·7; and in the East-Midland, 5·6. In the counties the illegitimate rate of the quarter ranged from 17·4 per cent. in Nairn, 13·6 in Wigtown, 13·3 in Elgin, 13·0 in

Kirkcudbright, and 12·8 in Banff, to 2·5 in Peebles, 3·7 in Fife, 3·8 in Ross and Cromarty, 3·8 in Dumbarton, 4·3 in Orkney, and 4·3 in Stirling. In eight counties this rate was 10 per cent. or more; in seventeen counties it was between 5 and 10 per cent.; in eight counties it was less than 5 per cent.

Of the living children whose births were registered during the quarter, 17,752 were male, and 16,919 female. The ratio of male to female children was thus 104·9 to 100.

The average number of births registered daily in April was 390; in May, 376; and in June, 377.

The birth-rate of the quarter in England and Wales was 26·6, which is 1·9 less than the Scottish birth-rate.

DEATHS.

Deaths registered during the quarter numbered 18,478, and for that number the equivalent annual death-rate is 15·2, a rate which is 2·7 less than that of the previous quarter, 1·0 less than the death-rate of the second quarter of last year, 1·9 less than the mean of the death-rates of the second quarters of the preceding ten years, and is the lowest death-rate of all second quarters since the institution of national registration.

In the groups of registration districts the death-rate of the quarter ranged from 15·8 in the Large Town Districts, to 14·5 in the Small Town Districts. In the Insular-Rural Districts it was 15·7, in the Principal Town Districts 15·5, and in the Mainland-Rural Districts 14·9. In each of the groups of registration districts the death-rate of this quarter is less than that of the corresponding quarter of last year.

In the divisions of the counties the death-rate of the quarter ranged from 16·0 in the North-Western, to 13·9 in the North-Eastern. In the Northern it was 15·8; in the South-Western, 15·6; in the Southern, 15·6; in the East-Midland, 15·2; in the South-Eastern, 15·1; and in the West-Midland, 14·5.

In the eight Principal Towns the death-rate of the quarter ranged from 17·8 in Paisley, and 17·7 in Dundee, to 13·5 in Leith. In Glasgow it was 16·6; in Edinburgh, 15·8; in Perth, 15·3; in Greenock, 14·3; and in Aberdeen, 14·2. In Glasgow, Leith, Greenock, and Perth the death-rate of the quarter is less than that of the second quarter of last year, but in Edinburgh, Dundee, Aberdeen, and Paisley it is higher than that of the second quarter of last year.

Of the total deaths of the quarter, 9330 were of males, and 9148 of females.

The average number of deaths registered daily in April was 225, in May 201, and in June 184.

The death-rate of the quarter in England and Wales was 14·0, which is 1·2 less than the Scottish death-rate.

MARRIAGES.

Marriages registered during the quarter numbered 8171. The equivalent annual marriage-rate is 6·7 per thousand, a rate which is 0·8 above that of the previous quarter, but is 0·6 below that of the second quarter of last year, and 0·7 below the mean of the marriage-rates of the second quarters of the preceding ten years.

In the groups of registration districts the marriage-rate of the quarter ranged

from 7·6 in the Principal Town Districts, to 1·7 in the Insular-Rural Districts. In the Large Town Districts it was 7·0; in the Small Town Districts, 6·3; and in the Mainland-Rural Districts, 5·4. In the divisions of the counties the marriage-rate of the quarter ranged from 8·2 in the South-Eastern, to 3·2 in the Northern. In the South-Western it was 6·9; in the North-Eastern, 6·7; in the East-Midland, 6·7; in the Southern, 6·7; in the West-Midland, 5·1; and in the North-Western, 3·8.

The average number of marriages registered daily in April was 76, in May 41, and in June 154.

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As 38 per cent. of the population of Scotland live in eight of the principal towns, namely, Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in them during the quarter are a fairly good indication of the causes of death prevalent generally in Scotland during the period. Details of the causes of death in the remainder of Scotland are not yet available.

The estimated aggregate population of the eight towns is 1,865,571. Deaths registered in them during the quarter numbered 7493, and for that number the equivalent annual death-rate is 16·12, a rate which is 3·4 less than that of the previous quarter, but is the same as that of the second quarter of last year. The death-rate of these towns in April was 17·8, in May 16·1, and in June 14·4.

Deaths from the acutely infectious conditions numbered 706; of them 311 were registered in April, 231 in May, and 164 in June. The death-rate from these causes for the quarter was 1·52, a rate which in April was 2·03, in May 1·46, and in June 1·07. The corresponding death-rate of the previous quarter was 1·85, and of the second quarter of last year, 1·36. The 706 deaths from these causes include 71 from measles, 51 from scarlet fever, 457 from whooping-cough, 73 from diphtheria, 24 from enteric fever, 2 from typhus fever, 27 from cerebro-spinal meningitis, and 1 from pyrexia of uncertain origin. The equivalent annual death-rate from measles is 15 per 100,000, from scarlet fever 11, from whooping-cough 98, from diphtheria 16, and from "fevers" 12.

Deaths from diarrhoeas, including those registered as due to enteritis and gastro-enteritis, numbered 211; they are 25 more than were registered in the previous quarter, and 36 more than were registered in the second quarter of last year. The equivalent annual death-rate is 45 per 100,000, a rate which in April was 48, in May 46, and in June 42. The corresponding death-rate of the previous quarter was 40 per 100,000, and that of the second quarter of last year 38.

Deaths ascribed to tuberculous disease numbered 1053: they are 23 more than were registered in the previous quarter, but 35 fewer than were registered in the second quarter of last year. The equivalent annual death-rate is 227 per 100,000, a rate which in April was 233, in May 216, and in June 231, and which in the previous quarter was 224, and in the second quarter of last year 237. Of these deaths 641 were ascribed to phthisis, the death-rate from that cause being 138 per 100,000, a rate which in the previous quarter was 142, and in the second quarter of last year was 143. Among the deaths from tubercle there are also included 167 from tuberculous meningitis, 124 from tuberculous peritonitis and tabes, 67 from general tuberculosis, and 54 from other forms of tuberculous disease.

Deaths from malignant disease numbered 462; they are 40 fewer than in the previous quarter, but 41 more than in the second quarter of last year. The equivalent annual death-rate from these causes was 99 per 100,000, a rate which in April was 93, in May 102, and in June 103, and which is 10 less than that of the previous quarter, but 7 more than that of the second quarter of last year. These deaths include 243 from carcinoma, 30 from sarcoma, and 189 from other or unspecified form of cancer.

Deaths from pneumonia numbered 749; they are 302 fewer than were registered in the previous quarter, but 28 more than were registered in the second quarter of last year. The equivalent annual death-rate from this cause is 161 per 100,000, a rate which in April was 185, in May 166, and in June 132, and which is 68 less than that of the previous quarter, but 4 more than that of the second quarter of last year.

Deaths from bronchitis numbered 492: they are 379 fewer than those registered in the previous quarter, but 11 more than those registered in the second quarter of last year. The equivalent annual death-rate is 106 per 100,000, a rate which in April was 146, in May 99, and in June 74, and which is 84 less than that of the previous quarter, but 1 more than that of the second quarter of last year.

Deaths from diseases and accidents of pregnancy, including those ascribed to puerperal septic conditions, numbered 52; they are 15 fewer than in the previous quarter, and 12 fewer than in the second quarter of last year.

Deaths of children of less than one year old numbered 1409. Births registered in the eight towns during the quarter numbered 12,739, and thus the infantile mortality rate per thousand births was 111, a rate which is 32 less than that of the previous quarter, but 1 more than that of the corresponding quarter of last year. This rate ranged from 139 in Aberdeen, to 71 in Perth. In Paisley it was 115; in Glasgow, 111; in Edinburgh, 110; in Dundee, 109; in Leith, 98; and in Greenock, 78.

Of the total deaths registered during the quarter, 2411, or 32.2 per cent.,

were of children of less than five years old, and 2072, or 27·7 per cent., of persons of over sixty. The former are 593 fewer than in the previous quarter, and 90 fewer than in the second quarter of last year. The latter are 570 fewer than in the previous quarter, but 130 more than in the second quarter of last year.

Deaths from violence numbered 250; they are 39 fewer than in the previous quarter, and 32 fewer than in the corresponding quarter of last year. Of them 3 were ascribed to homicide, 24 to suicide, and 223 to accident.

WEATHER.

The Meteorological Returns which appear in the Registrar-General's Monthly Reports, and which refer more particularly to observations made in the eight Principal Towns enumerated above, show that *April* was characterised by a slightly low mean pressure; a rather high mean temperature, with a high mean daily range; a very high mean rainfall; and a large excess of winds from between S.E. and S.W. *May* was characterised by a high mean pressure; a slightly high mean temperature, with a high mean daily range; a somewhat high mean rainfall; and an excess of winds from between S.E. and S.W. *June* was characterised by a rather high mean pressure; a low mean temperature, with a slightly high mean daily range; a slightly low mean rainfall; and a very large excess of winds from N., N.E. and E.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·862 inches in April, 30·053 inches in May, and 30·002 inches in June. The mean temperature for the quarter was 48°·6, or 0°·2 below the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in April was 44°·6, in May 48°·7, and in June 52°·4. The absolutely highest temperature recorded in April was 69°, in May 75°, and in June 78°. The absolutely lowest temperature recorded in April was 18°, in May 20°, and in June 30°. The mean number of days on which rain fell was 17 in April, 16 in May, and 12 in June; the mean amount collected was 3·47 inches in April, 2·74 inches in May, and 1·95 inch in June.

N.B.—Districts containing Parliamentary or Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals; thus—CARLUKE. An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more, or parts of more than one Parish. The component parts of these Districts will be found on page 45. A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

APRIL, MAY, JUNE,

1909.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE
QUARTER ENDING 30th JUNE 1909.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the Scottish Meteorological Society, and at some additional stations whose returns are included by the courtesy of the Meteorological Office. The total number of contributing stations is 68. For list of Observers, see page 66.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the values at all the contributing stations. That for rainfall does not represent the whole country in a quite satisfactory manner, as stations are more numerous in dry districts than in wet districts: the figures, however, are fairly comparable with the corresponding figures given for former years.

Table II. refers to eight of the principal towns only (*v.* page 7), and is extracted from the Monthly Reports already published by the Registrar General for Scotland.

TABLE I.—MEANS FOR ALL SCOTLAND.

1909.	BARO- METER at 32° F. and Sea- level.	SELF-REGISTERING THERMOMETERS.					RAIN.

May	58·6	41·5	50·1	75	29	15	2·72	4	5	9	8	4	12	12	6	2	
Jun.	61·8	46·2	54·0	76	37	12	2·12	4	11	16	7	1	4	8	6	3	

And when the figures in Table I. and those of wind-direction in Table II. are compared with the averages for 1856–1905, during the same months, they show the following characteristics and differences:—

APRIL 1909—

Mean Barometric Pressure, 29·862 inches; less than the average by 0·021 inch.

Mean Temperature, 44°·6; greater by 0°·5.

Mean Daily Range of Temperature, 15°·5; greater by 1°·0.

Rain, Number of Days, 17; greater by 2 days.

Rain, Depth in Inches, 3·47; greater by 1·20 inch.

Wind, Direction of: a 5 days' excess of winds from between S.E. and S.W.

MAY 1909—

Mean Barometric Pressure, 30·053 inches; greater than the average by 0·109 inch.

Mean Temperature, 48°·7; less by 0°·3.

Mean Daily Range of Temperature, 16°·6; greater by 1°·1.

Rain, Number of Days, 16; greater by 3 days.

Rain, Depth in Inches, 2·74; greater by 0·45 inch.

Wind, Direction of: a 3 days' excess of winds from between S.E. and S.W.

JUNE 1909—

Mean Barometric Pressure, 30·002 inches; greater than the average by 0·056 inch.

Mean Temperature, 52°·4; less by 2°·5.

Mean Daily Range of Temperature, 14°·7; less by 1°·1.

Rain, Number of Days, 12; less by 1 day.

Rain, Depth in Inches, 1·95; less by 0·57 inch.

Wind, Direction of: a 7 days' excess of winds from between N. and E.

APRIL 1909.

Hence the month of APRIL 1909 was characterised by a slightly low mean pressure; a slightly high mean temperature, with a rather high mean daily range; a high mean rainfall; and a large excess of winds from between S.E. and S.W.

The mean pressure was 29·862 ins., or 0·021 in. below the normal. From 1st to 10th high pressure conditions in general prevailed, though from 2nd to 4th a large Atlantic disturbance affected Western districts. From 11th onwards pressure was very variable. At Leith the sea-level extremes were 30·514 ins. on 2nd, and 29·248 ins. on 13th.

The mean temperature was 44°·6, or 0°·5 above the normal, the nights being of average temperature and the days 1°·0 above the average. The variations from the normal at the individual stations ranged from an excess of about 2° at Edinburgh to a defect of fully 1° at Montrose. Cold and unsettled weather at the beginning of the month was followed by a remarkably fine spell from 4th to 10th with warm days but rather cold nights, and a mean temperature much above the normal. The extremes for the month were registered about this time, Perth, Crieff, and Dumfries reaching 69° in shade on 8th, and a minimum reading of 18° occurring at Balmoral on 6th, and also at Kingussie on 2nd. From 10th onwards there was, on the whole, a temperature excess until almost the close of the month, when Northerly winds brought about low readings both by day and night. In Orkney and Shetland the minimum for the month occurred on 30th, and on that day over a large part of the country the thermometer did not rise to 45°.

As regards rainfall, the mean of all the contributing stations was 3·47 ins., or 53 per cent. above the normal. Paisley, Rothesay, and Crieff had fully twice their normal rainfalls, and in most districts there was a well-pronounced excess, though the Northern Islands and some North-Western stations had a slight shortage. Some rather heavy falls occurred on 3rd in West and North, Lochbuie having as much as 2·81 ins. on that day, Rothesay 1½ in., Dunrobin, Stronvar, and Paltalloch an inch or more. From 5th to 10th, except for some trifling falls towards the North-West, Scotland shared with England and Ireland rainless and very sunny weather. From 11th onwards variable conditions prevailed with frequent rather heavy falls, 1 inch or more being registered at Stronvar on 22nd, at Leadhills and Drumlanrig on 24th, and at Dumbarton and Paisley on 26th.

On 3rd a Southerly gale prevailed in West and North, and towards the end of the month wind force was occasionally high.

Thunderstorms occurred at Rothesay on 13th, in the South-East on 14th, at Gordon Castle on 15th, and at widely scattered places from 24th to 30th. Hail occurred about the middle and towards the end of the month, whilst the weather on 30th was of a wintry character, a Northerly wind bringing snow and sleet.

Sunshine aggregates were close to the normal at many stations, though above the average in the South.

Coast fog was rather prevalent during the fine weather from 5th to 10th.

Auroras observed at Deerness on 11th, and at Gordon Castle on 16th.

MAY 1909.

Hence the month of MAY 1909 was characterised by a high mean pressure; a mean temperature slightly below the normal, with a rather high mean daily range; a somewhat high mean rainfall; and an excess of winds from between S.E. and S.W.

The mean pressure was 30·053 ins., or 0·109 in. above the normal. From 1st to 24th pressure was maintained at an almost continuously high level, broken only by a temporary interruption from 16th to 18th, whilst during the closing week conditions were more irregular, with lowest readings on 26th. At Leith the sea-level extremes were 30·455 ins. on 6th and 29·361 ins. on 26th.

The mean temperature was 48°·7, or 0°·3 below the normal, the days being 0°·3 above and the nights 0°·8 below their respective averages. There was a fairly well-marked temperature excess along a broad belt between the Firths of Forth and Clyde, whilst many stations agreed closely with their normals. The month opened with extremely cold winds from the North, and though warmer days were experienced during a spell of fine sunny weather from about 3rd to 10th the nights remained cold. Towards the middle of the month Northerly winds again prevailed, Wolfelee reporting a shade minimum of 20° on 15th, and Broomlands (Kelso) 22° on 16th. Thereafter conditions were rather variable, temperature being frequently well above the average, but now and then depressed under the influence of winds from North-East or East. The warmest days occurred between 5th and 8th, and between 20th and 22nd, several stations reaching 75° in shade during one or other of these periods, Buchlyvie and Crieff on 8th, Broomlands and Wolfelee on 20th, and Perth on 22nd.

The mean rainfall was 2·74 ins., or 20 per cent. above the normal. The South of Scotland and the extreme North had rather less than their average amounts, but in

most districts there was a fairly well-marked excess, whilst Dundee had more than twice its normal. Slight rains in North and West during the opening days were followed by a rainless week from 4th to 10th in all districts. Thereafter conditions were more unsettled, but no very heavy falls occurred until the last week of the month. On 25th some large amounts were recorded—nearly 2 ins. at Crieff and Stronvar, more than $1\frac{1}{2}$ in. at Dundee, Perth and Buchlyvie, and more than 1 in. at Montrose, Arbroath, Duns and Marchmont. On 31st Dundee again registered $1\frac{1}{2}$ in.

Wind force was, as a rule, very moderate, but gales were experienced here and there in the North towards the end of the month.

Sleet and hail occurred at the beginning and towards the middle of the month. Thunder was heard, or actual thunderstorms occurred, in Shetland on 1st, in Berwickshire on 12th and 14th, in North-East on 18th and 19th, and in East on 26th and 27th.

Sunshine aggregates were in general above the normal, a result due to large amounts recorded between 4th and 10th.

But little coast fog occurred, except in Shetland between 22nd and 28th.

Auroras observed at Baltasound on 5th, and at one or two Eastern stations on 14th.

JUNE 1909.

Hence the month of JUNE 1909 was characterised by a rather high mean pressure; a very low mean temperature, with a low mean daily range; a rather low mean rainfall; and a very large excess of winds from N., N.E. and E.

The mean pressure was 30·002 ins., or 0·056 in. above the normal. The barometer, as a rule, stood at a high level, and at Leith fell below 30 ins. only from 4th to 6th and from 20th to 27th, the extremes there being 30·346 ins. on 15th, and 29·201 ins. on 22nd.

The mean temperature was 52°·4, or 2°·5 below the normal, the days being 3°·1 and the nights 2°·0 below their respective averages. The month was less cold than June 1907, and on the East coast slightly less cold than in 1902, but with these exceptions, and considering the country as a whole, it appears to have been the coldest June since 1892. The unusual prevalence of winds from N. and N.E. prevented anything like summer conditions being at any time established, and low day temperatures were especially notable, more than half the reporting stations failing to reach 70°. The third week was the least unseasonable, and highest temperatures occurred as a rule between 14th and 19th, the actual highest being 78° at Buchlyvie on 14th. The coldest nights were registered between 5th and 7th and between 11th and 13th, the lowest readings in the screen being 30° at Leadhills on 6th; 31° at West Linton and Wolfelee on the same day, and 31° at Crathes on 13th.

The mean rainfall was 1·95 ins. or 22 per cent. below the normal. There was a slight excess in Orkney, and the extreme North, and very generally towards South-West and South. As a rule, however, there was a well-defined shortage, several stations having less than half their normal rainfalls, and Dundee, Kingussie, Fort William, Fort Augustus, Castlebay and Monach, aggregates of less than 1 inch. Some rain fell during the opening days, whilst the period from 6th to 16th was all but rainless over a great part of the country. Thereafter conditions were very unsettled until nearly the close of the month, with some heavy falls between 21st and 23rd. Thus, on 21st, Rothesay had $1\frac{1}{2}$ in., or about half its total for the entire month; on 22nd Drumlanrig nearly 2 ins., and Glasgow, Colmonell, Dumfries and other places towards South-West and South considerably more than 1 in., and on 23rd Leadhills fully 2 ins.

Between 20th and 28th, and more especially from 21st to 23rd, thunderstorms were experienced on one or more days in almost all parts of the country, with hail here and there on 23rd and 24th.

The distribution of sunshine was very irregular. On the East, Edinburgh had its average amount, but Aberdeen a considerable deficiency. On the West, Stornoway had an aggregate of only 130 hours, or 2 hours per day less than Castlebay or Paisley, and more than 3 hours per day less than Oban with its aggregate of 229 hours.

Coast fog in North on 3rd, and in East and North about 22nd and 27th.

No auroras were observed.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 9 years 1901–1909.

The amount of cloud is estimated on a scale of 0–10, and a day is reckoned as a day of “clear sky” if the average of the estimates at the hours of observation is less than 2, and as an “overcast” day if the average is greater than 8.

REGISTRARS' NOTES.

In compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

“If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance.”

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

1. Shetland.

11. UNST.—One of the deaths registered in June was that of the oldest inhabitant of the island, who was aged 99 years and 3 months.

2. Orkney.

13. BIRSA.—Though no epidemic has been prevalent, the number of deaths is much above the average.

25. ST. ANDREWS.—Hooping cough prevalent during April and May.

30. STROMNESS.—Of the sixteen deaths recorded, eight were of persons of over 70 years of age.

31. STRONSAY.—Of the seven deaths registered, six were of persons aged over 70 years.

33 (1). WESTRAY.—The number of deaths registered during the quarter, as well as the total number of deaths recorded since the beginning of the year, is extremely low.

4. Sutherland.

46 (1). BONAR.—The number of births registered in the district since the beginning of the year is phenomenally low.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

53 (1). APPLECROSS.—Of the two deaths recorded one was that of a person aged 92 years.

6. Inverness.

Mainland.

95. DAVIOT and DUNLIGHTY.—No deaths or marriages were registered during the quarter, and only two births, the smallest number on record.

Insular.

111 (1). NORTH HARRIS.—Of the deaths registered, three were caused by accidental drowning.

113. NORTH UIST.—The number of deaths registered in the first half of this year is nine more than the number recorded in the corresponding period of 1908.

117 (1). NORTH SNIZORT.—Births and deaths much below the average.

III. NORTH-EASTERN DIVISION.

8. Elgin (or Moray).

126. BELLIE.—The births registered during the quarter are only one-fifth, and the deaths about one-third, of the number registered during the corresponding quarter of last year.

130. DRAINIE.—Of the twelve deaths registered, one was caused by drowning, and six others were of persons aged over 70 years.

9. Banff.

149b. CABRACH.—Only one entry (a birth) has been made in the Register during the quarter. This is considerably below the average.

155a (2). MACDUFF.—There is little change in the statistics for the quarter, but it may be noted that there is less illegitimacy than usual, two in three months being low for this district. No deaths registered in April, but the numbers for the following two months slightly exceed the usual.

10. Aberdeen.

178. CAIRNEY.—Hooping-cough broke out in a few families during the month of June, while in the same month, due to the inclemency and unseasonableness of the weather, a highly infectious cold swept the parish, notably amongst children.

183 (1). BRAEMAR.—Both the births and deaths are much below the average. The only death registered—that of a male aged 67—happened suddenly from natural causes.

192. ELLON.—With reference to the marriages registered in June, it may be stated that Ellon, for the purposes of marriage ceremonies, is a place central and convenient for the neighbouring parishes.

201. GLENMUCK.—Four of the deaths were of children aged from one to seven months (one death being caused by accidental poisoning), the remaining three deaths being of persons aged 67, 80 and 81 years respectively.

208. KILDRUMMY.—The two persons whose deaths were registered were aged 78 and 87 years respectively.

217. LOGIE COLDSTONE and CROMAR.—The only death recorded during the quarter was that of a female aged 84 years.

235 (2). INVERALLOCHY.—The first three deaths recorded in April were of persons whose ages averaged 85 years, being those of two farmers and of a fisherwoman, aged 93, 82 and 81 years respectively.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

303. LOCHLEE.—One of the two deaths registered during the quarter was that of an Old Age Pensioner aged 93 years.

317. RESCOBIE.—The illegitimate child whose birth was registered in April, was the daughter of a tramp who happened to be passing through the parish at the time.

320. STRACATHRO.—The number of deaths is abnormal, four being those of old people, and the other three those of comparatively young persons.

13. Perth.

366. KINFAUNS.—No deaths have occurred here this year. This is quite exceptional.

376. LOGIERAIT.—Both the male and the female who died in April were aged 82 years. The ages of the six persons whose deaths were recorded in June ranged from 87 to 68 years.

383. MONZIEVAIRD and STROWAN.—The death recorded was a case of accidental drowning.

14. Fife.

433. KEMBACK.—The average age of the four persons whose deaths were registered is $76\frac{1}{2}$ years.

458b. TULLIALLAN.—Two persons died at the age of 71 and 82 years respectively.

V. WEST-MIDLAND DIVISION.

17. Stirling.

469. AIRTH.—Of the six deaths registered during the quarter, two were those of infants, and one was due to accidental drowning.

19. Argyll.

Mainland.

515. KILBRANDON and KILCHATTAN.—Of the nine persons whose deaths were recorded during the quarter, two were children under one year of age (one of whom died from dentition, and the other from catarrhal pneumonia), two were aged 19 and 22 respectively (both of whom died from phthisis pulmonalis), and one was aged 83 years. Not for a long time have the deaths of so many young people been recorded in so short a period.

521. KILMARTIN.—Rötheln (German measles) prevalent during June. School closed from the 9th.

20. Bute.

553 (2). KILBRIDE.—The deaths recorded during the quarter were caused respectively by phthisis pulmonalis and by pneumonia supervening on rheumatic fever. Of the seven births recorded, two were illegitimate, a most unusual occurrence in this District.

VI. SOUTH-WESTERN DIVISION.

21. Renfrew.

567 (2). GOUROCK.—Of the eighty-one deaths registered, fifty-seven occurred in the Greenock Poorhouse and the Combination Fever Hospital.

572 (2). BARRHEAD and LEVERN.—The number of deaths registered in June is the lowest in any month since September 1904, with the exception of September 1907, when the number registered was also ten.

574. PORT-GLASGOW.—The continued depression through want of employment in the ship-building trade in this district is telling in the reduced number of births and marriages during the past six months.

22. Ayr.

578 (3). ALLOWAY.—Of the twenty-two deaths registered during the quarter, fifteen occurred in Ayr District Asylum.

590 (1). DUNDONALD.—Death-rate very high for May and June.

23. Lanark.

639. DALZIEL.—In the whole parish there is a decrease of twenty-five births, sixty-six deaths, and seven marriages, compared with the corresponding quarter of last year.

VII. SOUTH-EASTERN DIVISION.

25. Edinburgh.

677. COLINTON.—Of the seventy-six deaths registered during the quarter, forty-six occurred in Craiglockhart Poorhouse.

680. CRANSTON.—Scarlet fever has been prevalent in the Cousland district of the parish. No deaths have resulted therefrom.

682. CURRIE.—The total number of deaths (five) registered during the quarter is nine fewer than the number recorded in the corresponding quarter of last year. Phthisis caused three of the deaths, and of the remaining two, one was that of an infant two days old, and the other that of a female aged sixty-eight years.

685 (4). ST GILES.—The only events which show any departure from the average are the marriages, which show a decrease of forty-seven from the corresponding quarter of last year, being a decrease of sixteen irregular and thirty-one regular marriages.

686. FALA and SOUTRA.—No deaths registered during the past six months.

701. WEST CALDER.—The death rate for the quarter is high. Measles and enteric fever have been prevalent in the district. The deaths were registered of seven persons whose ages ranged from 60 to 95, the last being a farmer, the oldest man in the parish, who was fairly active till within a week of his death.

27. Berwick.

742. GORDON.—The death registered in April was that of an old age pensioner aged 78. The two females who died were twins only a few hours old.

28. Peebles.

760. EDDLESTON.—The death recorded was that of a woman aged 78 years. Two cases of scarlatina of a mild type have been notified during the quarter.

767. NEWLANDS.—Epidemic of measles in district. School shut for three weeks. No deaths have resulted.

771. TRAQUAIR.—The male death registered in May was caused by drowning.

VIII. SOUTHERN DIVISION.

30. Roxburgh.

795. LILLIESLEAF.—The two deaths registered were those of two females aged 69 and 23 years respectively, the latter death resulting from influenza.

798. MAXTON.—There have been no deaths or marriages registered in the parish during the first six months of the year.

799 (1). MELROSE.—Eight of the deaths occurred in the District Asylum.

807. SPROUSTON.—Phthisis pulmonalis was the cause of the three deaths registered, the ages being 31, 26, and 14 respectively.

31. Dumfries.

813½. BRYDEKIRK.—Two of the deaths registered in June were caused by drowning in the river Annan.

814. CANONBIE.—Three of the deaths registered were due to pulmonary tuberculosis, the ages being 15, 26, and 76 years.

837 (2). KIRKPATRICK-FLEMING, Southern District.—The illegitimate birth registered was that of a child born in the Poorhouse, the mother belonging to another parish.

32. Kirkcudbright.

858. BORGUE.—High birth rate, for which no reason can be assigned. The deaths were of infants aged one day and twelve days respectively.

874. KIRKPATRICK-DURHAM.—No deaths have been registered since January 2nd.

33. Wigtown.

888. KIRKOWAN.—One of the deaths registered in May was that of a male recently come to the parish, who was found drowned in the river Tarff.

890. KIRKMAIDEN.—An epidemic of scarlet fever broke out again in the parish. Four patients in fever hospital.

892. MOCHRUM.—Three of the deaths in June were caused by drowning.

INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.**

Abbey, . . . 559	Ardersier, . . . 91	Barrhead and	Bridge of Weir, 559	Carriden, . . . 663
Abbey St Bath- ans, . . . 726	Ardnamurchan, 505	Levern, . . . 572	Bridgeton, . . . 644	Carrington, . . . 675
Abbotshall, . . . 399	Ardoch, . . . 328	Barrhill, . . . 582	Brodict, . . . 553	Carsphairn, . . . 860
Abdie, . . . 400	Ardrossan, . . . 576	Barry, . . . 274	Broughton, . . . 758	Carstairs, . . . 633
Abercorn, . . . 661	Arisaig, . . . 91	Barvas, . . . 86	Brydekirk, . . . 813	Castleton, . . . 784
Aberdalgie, . . . 323	Armadales, . . . 662	Bathgate, . . . 662	Buchanan, . . . 474	Cathcart, . . . 560
Aberdeen, . . . 168	Arngask, . . . 328	Beath (Fife), . . . 410	Buckhaven, . . . 459	Catrine, . . . 613

Aberfoyle, . . . 325	Athelstaneford, 703	Bellie, . . . 126	Burghhead, . . . 131	Channelkirk, . . . 729
Aberlady, . . . 702	Auchindoir, . . . 172	Bellsbill, . . . 625	Burntisland, . . . 411	Chapel-of-Gari- och, . . . 179
Aberlemno, . . . 269	Auchinleck, . . . 577	Benbecula, . . . 118	Burra Isles, . . . 5	Chirnside, . . . 730
Aberlour, . . . 145	Auchterarder, 329	Bendochy, . . . 332	Busby, . . . 571	Clackmannan, . . . 466
Abernethy, . . . 326	Auchterderran, 405	Benholm, . . . 253		Clatt, . . . 180
Abernethy and	Auchtergaven, . . . 330	Bernaera, . . . 111		Cleish, . . . 460
Kincardine, . . . 90	Auchterhouse, . . . 273	Bervie, . . . 254		Closeburn, . . . 816
Abernyte, . . . 327	Auchterless, . . . 173	Biggar, . . . 623		Clunie (Perth), . . . 339
Abertariff, . . . 92	Auchtermuchty, 406	Birnie, . . . 127	Cabrach, . . . 149	Cluny (Aberd'n), 181
Aboyne, . . . 170	Auchterttool, . . . 407	Birsay, . . . 13	Cadder, . . . 626	Clyne, . . . 45
Aharacle, . . . 505	Auchdearn, . . . 121	Birse, . . . 175	Caddonfoot, . . . 774	Coatbridge, . . . 652
Airlie, . . . 270	Avoch, . . . 59	Blackford, . . . 333	Cairney, . . . 178	Cockburnspath, 731
Airth, . . . 469	Avondale, . . . 621	Blackridge, . . . 671	Calderhead, . . . 626	Cockpen, . . . 676
Alford, . . . 171	Ayr, . . . 578	Blair-Athol, . . . 334	Callander, . . . 336	Coigach, . . . 75
Alloa, . . . 465	Ayton, . . . 727	Blairgowrie, . . . 335	Calton, . . . 644	Coldingham, . . . 732
Alloway, . . . 578		Blantyre, . . . 624	Cambusbarron, 488	Coldstream, . . . 733
Alness, . . . 57		Blythswood, . . . 644	Cambuslang, . . . 627	Colinton, . . . 677
Alva (Clack- mannan), . . . 465	Baldernock, . . . 471	Boddam, . . . 232	Cambusnethan, 628	Coll, . . . 551
Alvah (Banff), . . . 146	Balfon, . . . 472	Boharm, . . . 147	Cameron, . . . 412	Collace, . . . 340
Alves, . . . 125	Ballachulish and	Boisdale, . . . 118	Camlachie, . . . 644	Collesie, . . . 416
Alvie, . . . 90	Corran of Ard- gour, . . . 506	Boleskine, . . . 92	Campbeltown, 507	Colmonell, . . . 582
Alyth, . . . 328	Ballantrae, . . . 579	Bolton, . . . 704	Campsie, . . . 475	Colonsay, . . . 539
Ancrum, . . . 780	Ballingry, . . . 408	Bonar, . . . 46	Canisbay, . . . 35	Colvend, . . . 861
Anderston, . . . 644	Balmacellian, . . . 856	Bonhill, . . . 493	Cannich, . . . 92	Comrie, . . . 341
Annan, . . . 812	Balmaghie, . . . 857	Bonnybridge, . . . 473	Canonbie, . . . 814	Contin, . . . 60
Anstruther-E., . . . 402	Balmerino, . . . 409	Borgue, . . . 858	Canongate, . . . 685	Cookney, . . . 258
Anstruther-W., . . . 403	Balquhider, . . . 331	Bo'ness, . . . 663	Caputh, . . . 337	Corscock Bridge, 862
Anwoth, . . . 855	Banchory-Deve- nick, . . . 251	Borthwick, . . . 674	Caradross, . . . 494	Corstorphine, . . . 678
Appin, . . . 525	Banchory-Ter- nan, . . . 252	Bothwell, . . . 625	Careston, . . . 277	Cortachy & Clova 278
Applecross, . . . 58	Banff, . . . 147	Botriphnie, . . . 148	Cargill, . . . 338	Coull, . . . 182
Applethar, . . . 813	Bargrennan, . . . 857	Bourtie, . . . 176	Carluke, . . . 629	Coupar-Angus, 341
Arbirlot, . . . 271	Barr, . . . 580	Bowden, . . . 783	Carnichael, . . . 630	Covington and Thankerton, . . . 634
Arbroath, . . . 272	Barra, . . . 108	Bower, . . . 34	Carnunnock, . . . 631	Coylton, . . . 583
Arbuthnott, . . . 250		Bowmore, . . . 536	Carmylie, . . . 276	Craig, . . . 280
Ardallie, . . . 171		Boyndie, . . . 149	Carnbee, . . . 413	Craigie, . . . 584
Ardochattan, . . . 504		Bracadale, . . . 109	Carnoch (Ross), 59	Craignish, . . . 508
Ardclach, . . . 120		Brechin, . . . 275	Carnock (Fife), 414	Crail, . . . 417
		Bressay, . . . 1	Carnwath, . . . 632	Crailing, . . . 786

* The actual number of Districts is 1079—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

Cramond, . . . 679	Duddingston, . . . 684	Farr, . . . 50	Glenmuick, Tul-	Jedburgh, . . . 792
Cranshaws, . . . 734	Duffus, . . . 131	Fauldhouse, . . . 673	lich, etc., . . . 201	Johnstone
Cranston, . . . 680	Duirinish, . . . 110	Fearn, . . . 64	Glenorchy, . . . 512	(Dumfries), . . . 832
Crathie, . . . 183	Dull, . . . 346	Fenwick, . . . 592	Glenrines, . . . 155	Johnstone and
Crawford, . . . 635	Dumbarton, . . . 496	Fern, . . . 287	Glenshee, . . . 370	Elderslie (Ren-
Crawfordjohn, . . . 636	Dumfries, . . . 821	Ferry-Port-on-	Glenshiel, . . . 67	frew), . . . 573
Creich (Fife), . . . 418	Dun, . . . 281	Craig, . . . 429	Golspie, . . . 51	Jura, . . . 539
Creich (Suth.), . . . 46	Dunbar, . . . 706	Fetlar, . . . 4	Gorbals, . . . 644	
Crichton, . . . 681	Dunbarney, . . . 347	Fettercairn, . . . 257	Gordon, . . . 742	
Crieff, . . . 342	Dunblane and	Fetteresso, . . . 258	Gourock, . . . 567	
Crimond, . . . 184	Lecropt, . . . 348	Findo-Gask, . . . 352	Govan, . . . 646	Keig, . . . 205
Cromarty, . . . 61	Dunbog, . . . 423	Fintray(Aberd.),193	Govanhill, . . . 644	Keir, . . . 833
Cromdale and	Dundee, . . . 282	Fintry(Stirling),480	Grainey (or	Keiss, . . . 37

1909.

REPORT.

During the quarter ending 30th September 1909 there were registered in Scotland the births of 31,186 living children, the deaths of 14,964 persons, and 7777 marriages. Compared to the numbers registered during the previous quarter, these births are 3485 fewer, the deaths 3514 fewer, and the marriages 394 fewer. Compared to the numbers registered in the corresponding, the third, quarter of last year, the births are 1426 fewer, the deaths 1361 fewer, and the marriages 267 fewer. Compared to the average number of births registered in the third quarter of the previous ten years, the averages being adjusted to allow for increase of population, the births are 3528 fewer, the deaths 2946 fewer, and the marriages 987 fewer. The number of births is smaller than that of all third quarters since 1894, the number of deaths is smaller than that of all third quarters since 1888, and the number of marriages is smaller than that of all third quarters since 1897.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts and Divisions during the Quarter ending 30th September 1909, with their Proportion to the Population ; also the Illegitimate Births and their Proportion to the Total Births.

BIRTHS.

The total number of births registered during the quarter was 31,186, and for that number the equivalent annual birth-rate is 25·4 per thousand, a rate which is 3·1 less than that of the previous quarter, 1·4 less than that of the third quarter of last year, and 2·9 less than the mean of the birth-rates of the third quarters of the preceding ten years. It is the lowest Scottish third quarter birth-rate recorded in these reports, that is since 1855, and, with the exception of the birth-rate of the fourth quarter of 1908, is the lowest of all quarterly Scottish birth-rates.

In the groups of registration districts the birth-rate of the quarter ranged from 28·3 in the Large Town Districts, to 20·3 in the Insular-Rural Districts. In the Small Town Districts the birth-rate of the quarter was 27·1, in the Principal Town Districts 24·6, and in the Mainland-Rural Districts 24·2. The birth-rate of the Small Town Districts is 2·1 less than that of the corresponding quarter of last year; that of the Large Town Districts is 1·8 less; that of the Principal Town Districts, 1·6 less; and that of the Mainland-Rural Districts, 0·2 less; but that of the Insular-Rural Districts is 0·3 more.

In the divisions of the counties the birth-rate of the quarter ranged from 27·4 in the South-Western, to 19·8 in the Northern. In the West-Midland it was 24·9; in the South-Eastern, 24·4; in the East-Midland, 24·3; in the North-Eastern, 23·9; in the Southern, 22·2; and in the North-Western, 20·9.

In the Eight Principal Towns the birth-rate of the quarter ranged from 26·9 in Leith, to 19·8 in Perth. In Greenock it was 26·0; in Dundee, 25·8; in Glasgow, 25·4; in Paisley, 23·1; in Aberdeen, 23·0; and in Edinburgh, 19·9. Compared to the birth-rates of the third quarter of last year, that of Greenock is 4·9 less; that of Edinburgh, 1·8 less; that of Glasgow, 1·7 less; that of Perth, 0·7 less; that of Aberdeen, 0·5 less; that of Paisley, 0·1 less; and that of Dundee, 0·2 more.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland during the Quarter ending 30th September 1909.

Counties.	Per Cent.	Counties.	Per Cent.	Counties.	Per Cent.
Shetland	7·9	Forfar	9·3	Lanark	5·7
Orkney	5·7	Perth	8·5	Linlithgow	5·8
Caithness	10·5	Fife	4·8	Edinburgh	7·9
Sutherland	3·1	Kinross	2·5	Haddington	6·7
Ross and Cromarty	4·9	Clackmannan	5·4	Berwick	7·6
Inverness	8·0	Stirling	5·8	Peebles	15·8
Nairn	11·5	Dumbarton	4·6	Selkirk	9·6
Elgin	15·4	Argyll	10·5	Roxburgh	10·2
Banff	13·7	Bute	7·0	Dumfries	11·3
Aberdeen	11·6	Renfrew	4·3	Kirkcudbright	12·4
Kincardine	8·9	Ayr	7·2	Wigtown	14·2

Of the 31,186 births registered during the quarter, 2197, or 7·0 per cent., were illegitimate. These births are 100 fewer than were registered in the previous quarter, and 69 fewer than were registered in the corresponding quarter of last year. The illegitimate rate is 0·4 above that of the previous quarter, and 0·1 above that of the corresponding quarter of last year. The rise of the illegitimate rate may be ascribed to the fall in the number of legitimate births registered.

The illegitimate rate of the quarter in the groups of registration districts ranged from 9·2 in the Mainland-Rural Districts, to 5·6 in the Large Town Districts. In the Principal Town Districts this rate was 7·0; in the Small Town Districts, 6·4; and in the Insular-Rural Districts, 5·8. In the divisions of

the counties this rate ranged from 12·0 in the North-Eastern, and 11·9 in the Southern, to 5·7 in the South-Western. In the South-Eastern it was 7·7; in the Northern, 7·5; in the East-Midland, 7·2; in the North-Western, 6·5; and in the West-Midland 6·1. In the counties the illegitimate rate of the quarter ranged

from 15·8 in Peebles, 15·4 in Elgin, 14·2 in Wigtown, and 13·7 in Banff, to 2·5 in Kinross, 3·1 in Sutherland, 4·3 in Renfrew, and 4·6 in Dumbarton. In eleven counties this rate exceeded 10 per cent.; in sixteen counties it was between 5 and 10 per cent.; in six counties it was less than 5 per cent.

Of the living children whose births were registered during the quarter, 15,852 were male, and 15,334 female. The ratio of male to female births was thus 103·4 to 100.

The average number of births registered in Scotland daily in July was 352; in August, 336; and in September, 328.

The birth-rate of the quarter in England and Wales was 25·4, which is the same as the Scottish rate.

DEATHS.

Deaths registered during the quarter numbered 14,964, and for that number the equivalent annual death-rate is 12·2 per thousand, a rate which is 3·0 less than that of the previous quarter, 1·2 less than that of the third quarter of last year, 2·4 less than the mean of the death-rates of the third quarters of the preceding ten years, and is the lowest quarterly Scottish death-rate yet recorded; the previous lowest was 13·1, which occurred in the third quarter of 1907.

The death-rate of the quarter in the groups of registration districts ranged from 13·1 in the Insular-Rural Districts, to 12·0 in the Principal Town Districts. In the Large Town Districts it was 12·8; in the Small Town Districts, 12·1; and in the Mainland-Rural Districts 12·1. This is the second quarterly report in which the death-rate of the Principal Town Districts was found to be the lowest of the death-rates of the groups of registration districts. In previous quarterly and annual reports attention has been drawn to the fact that the death-rate of the Principal Town Districts was approximating to those of the rural districts, and that the difference between those death-rates, which at one time was large, is a diminishing quantity, and it is now interesting to observe that the Principal Town death-rate is again lower than both the rural death-rates. Compared to the rates of the third quarter of last year that of the Small Town Districts is 1·6 less; that of the Principal Town Districts 1·4 less; that of the Mainland-Rural Districts 1·0 less; that of the Large Town Districts 0·8 less; and that of the Insular-Rural Districts 0·4 less.

In the divisions of the counties the death-rate of the quarter ranged from 14·5 in the Northern, to 11·5 in the North-Eastern and West-Midland. In the North-Western it was 13·1; in the East-Midland, 12·7; in the South-Eastern, 12·3; in the South-Western, 12·1; and in the Southern, 11·6.

The death-rate in the eight Principal Towns ranged from 15·0 in Dundee, to 11·4 in Aberdeen. In Perth it was 13·8; in Paisley, 13·0; in Greenock, 12·8; in Glasgow, 12·6; in Edinburgh, 12·2; and in Leith 12·2. In Glasgow, Edinburgh, Dundee, and Greenock, the death-rates of this quarter were less than those of the third quarter of last year, but in Aberdeen, Paisley, Leith and Perth, the death-rates were higher in this than in the third quarter of last year.

Of the 14,964 deaths registered during the quarter, 7424 were of males, and 7540 of females. The ratio of male to female deaths was thus 98·5 to 100.

The average number of deaths registered in Scotland daily in July was 164, in August 162, and in September 163.

The death-rate of the quarter in England and Wales was 11·6, which is 0·6 less than the Scottish quarterly death-rate.

MARRIAGES.

Marriages registered during the quarter numbered 7777, and for that number the equivalent annual marriage-rate is 6·3 per thousand. That rate is 0·4 less than the marriage-rate of the previous quarter, and 0·3 less than that of the third quarter of last year. It is lower than the marriage-rate of any third quarter since 1894.

In the groups of registration districts the marriage-rate of the quarter ranged from 7·8 in the Principal Town Districts, to 2·0 in the Insular-Rural Districts. In the Large Town Districts it was 6·6; in the Small Town Districts, 5·6; and in the Mainland-Rural Districts, 3·9. In the divisions of the counties the marriage-rate of the quarter ranged from 7·6 in the South-Eastern, to 2·9 in the North-Western. In the South-Western it was 6·7; in the East-Midland, 6·2; in the North-Eastern, 5·8; in the Southern, 5·7; in the West-Midland, 5·4; and in the Northern, 3·3.

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As 38 per cent. of the population live in eight of the principal towns, namely, Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in those towns during the quarter are a fairly good indication of the causes of death prevalent generally throughout Scotland during the period. Details of the causes of death in the remainder of Scotland are not yet available.

The estimated aggregate population of the eight towns is 1,865,571. Deaths registered in them during the quarter numbered 5952, and for that number the equivalent annual death-rate is 12·7 per thousand. This death-rate is 3·4 less than the corresponding death-rate of the previous quarter, 1·1 less than the

corresponding death-rate of the third quarter of last year. The death-rate of these eight towns in July was 12·5, in August 12·6, and in September 12·9.

Deaths in these towns from acutely infectious diseases during the quarter numbered 361; of them 126 were registered in July, 123 in August, and 112 in September. The death-rate from these causes amounts to 77 per 100,000, a rate which is 75 less than the corresponding death-rate of the previous quarter, and 13 less than that of the third quarter of last year. The death-rate from these causes in July was 80, in August 78, and in September 73. These 361 deaths include 64 from measles, 58 from scarlet fever, 123 from hooping-cough, 69 from diphtheria, 28 from enteric fever, 15 from cerebro-spinal meningitis, and 4 from typhus fever. The equivalent annual death-rate from measles is 14 per 100,000, from scarlet fever 12, from hooping-cough 26, from diphtheria 15, from enteric fever 6, from typhus fever 1, and from cerebro-spinal meningitis 3.

Deaths from diarrhoeas, including those registered as due to enteritis and gastro-enteritis, numbered 311; they are 100 more than were registered in the previous quarter, but 241 fewer than were registered in the corresponding quarter of last year. The equivalent annual death-rate from these causes is 66 per 100,000, a rate which is 21 above that of the previous quarter, but 53 below that of the third quarter of last year. This death-rate in July was 38, in August 83, and in September 78.

Deaths ascribed to tuberculous disease numbered 830; they are 223 fewer than those of the previous quarter, but 16 more than those of the third quarter of last year. The equivalent annual death-rate is 177 per 100,000, a rate which is 50 below that of the previous quarter, but 1 above that of the corresponding quarter of last year. This death-rate in July was 181, in August 172, and in September 178. Of these deaths 489 were ascribed to phthisis, 142 to tuberculous meningitis, 104 to tuberculous peritonitis and tabes mesenterica, and 95 to other or unspecified form of tuberculous diseases. The death-rate from phthisis was 104 per 100,000, a rate which in July was 103, in August 109, in September 101, and which is 34 less than that of the previous quarter, and 2 less than that of the third quarter of last year.

Deaths from malignant disease numbered 521; they are 59 more than those of the previous quarter, and 38 more than those of the third quarter of last year. The equivalent annual death-rate is 111 per 100,000, a rate which is 12 above that of the previous quarter, and 7 above that of the corresponding quarter of last year. This rate in July was 118, in August 114, and in September 101. These 521 deaths include 302 registered as due to carcinoma, 23 to sarcoma, and 196 to other or unspecified form of cancer.

Deaths from pneumonia numbered 395; they are 354 fewer than those registered in the previous quarter, and 26 fewer than those registered in the third quarter of last year. The equivalent annual death-rate from this cause is 84 per 100,000, a rate which in July was 100, in August 77, and in September 75, and which is 77 less than that of the previous quarter, and 7 less than that of the third quarter of last year.

Deaths from bronchitis numbered 231; they are 261 fewer than were registered in the previous quarter, and 52 fewer than those registered in the third quarter of last year. The equivalent annual death-rate is 49 per 100,000, a rate which is 57 less than that of the previous quarter, and 12 less

than that of the corresponding quarter of last year. The death-rate from bronchitis in July was 48, in August 51, and in September 48.

Deaths from diseases and accidents of pregnancy and childbirth, including those registered as due to puerperal septic conditions, numbered 58; they are 6 more than in the previous quarter, and 1 more than in the third quarter of last year.

Deaths of children of less than one year old numbered 1195. Births registered in the eight towns during the quarter numbered 11,276, and thus the infantile mortality amounted to 106 per thousand births, a rate which is 5 less than that of the previous quarter, and 19 less than that of the third quarter of last year. The infantile mortality rate of the quarter ranged from 122 in Dundee, to 98 in Edinburgh. In Leith it was 119; in Perth, 114; in Glasgow, 105; in Aberdeen, 104; in Paisley, 104; and in Greenock, 99.

Deaths of children of less than five years old numbered 1869, and constituted 31·4 per cent. of the total deaths. Deaths of persons of over sixty numbered 1570, and constituted 26·4 per cent. of the total deaths.

Deaths attributed to violent causes numbered 268; they are 18 more than in the previous quarter, but 45 fewer than in the third quarter of last year. Of them 3 were ascribed to homicide, 27 to suicide, 1 to judicial execution, and 237 to accident.

WEATHER.

The Meteorological Returns which appear in the Registrar-General's Monthly Reports, and which refer more particularly to observations made in the eight Principal Towns enumerated above, show that *July* was characterised by a low mean pressure; a low mean temperature, with a slightly high mean daily range; a slightly high mean rainfall; and a very large excess of winds from between S.W. and N.W. *August* was characterised by a rather high mean pressure; a slightly high mean temperature, with a slightly high mean daily range; a low mean rainfall; and a large excess of winds from between S.W. and N.W. *September* was characterised by a very high mean pressure; a decidedly low mean temperature, with a slightly high mean daily range; a low mean rainfall; and a large excess of winds from a North-Easterly quarter.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·772 inches in July, 29·900 inches in August, and 30·039 inches in September. The mean temperature for the quarter was 54°·5, or 1°·1 below the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in July was 55°·6, in August 56°·6, and in September 51°·2. The absolutely highest temperature recorded in July was 77°, in August 82°, and in September 71°. The absolutely lowest temperature recorded in July was 33°, in August 30°, and in September 26°. The mean number of days on which rain fell was 19 in July, 18 in August, and 15 in September. The mean amount collected was 3·75 inches in July, 2·69 inches in August, and 2·16 inches in September.

[illegible]

N.B.—Districts containing Parliamentary or Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals; thus—CARLUKE. An asterisk "*" is prefixed to those Districts which are situated, or which comprise more, or parts of more than one Parish. The component parts of these Districts will be found on page 45. A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name. † Return not received.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING
TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
2. Orkney.		
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
3. Caithness.		
37b	Keiss	Parts of Canisbay and Wick.
5. Ross and Cromarty.		
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross, and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs, and part of Uig.
6. Inverness.		
92b	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
8. Elgin.		
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
9. Banff.		
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrinness	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
10. Aberdeen.		
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinrimonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone, and part of Glenmuick.
222b	Millbren	Parts of Fyvie and Monquhitter.
227b	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Forgue.
11. Kincardine.		
266	Nigg	Nigg, and part of Aberdeen.
12. Forfar.		
282	Dundee	Dundee Combination, and part of Mains and Strathmartine.
294b	Kilry	Parts of Glenisla and Lintrathen.
13. Perth.		
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhidder	Balquhidder, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigie	Meigie, and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenantry	Parts of Blair-Athol and Moulin.
14. Fife.		
402	Anstruther-Easter	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457b	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
17. Stirling.		
473	Bonnybridge	Parts of Denny, Dunipace, and Falkirk.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
18. Dumbarton.		
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
19. Argyll.		
504	Ardchattan	Part of Ardchattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnamurchan, and of Arisaig and Moldart.
506	Ballachulish, etc.	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishall; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishall.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
20. Bute.		
556	Lochranza	Parts of Kilbride and Kilmory.
21. Renfrew.		
559b	Bridge of Weir	Part of Houston and Killellan and of Kilbarchan.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

JULY, AUGUST, SEPTEMBER,

1909.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE
QUARTER ENDING 30th SEPTEMBER 1909.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish
Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the
Scottish Meteorological Society, and at some additional stations whose returns are
included by the courtesy of the Meteorological Office. The total number of contributing
stations is 69. For list of Observers, see page 66.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the
values at all the contributing stations. That for rainfall does not represent the whole
country in a quite satisfactory manner, as stations are more numerous in dry districts
than in wet districts: the figures, however, are fairly comparable with the corresponding
figures given for former years.

Table II. refers to eight of the principal towns only (*v.* page 7), and is extracted from
the Monthly Reports already published by the Registrar General for Scotland.

TABLE I.—MEANS FOR ALL SCOTLAND.

1909.	BARO- METER at 32° F. and Sea- level.	SELF-REGISTERING THERMOMETERS.					RAIN.

Sept.	58·7	44·7	51·7	71	31	14	2·00	4	7	12	4	2	6	9	7	9	

And when the figures in Table I. and those of wind-direction in Table II. are
compared with the averages for 1856–1905, during the same months, they show the
following characteristics and differences:—

JULY 1909—

Mean Barometric Pressure, 29·772 inches; less than the average by 0·120 inch.
Mean Temperature, 55°·6; less by 1°·7.
Mean Daily Range of Temperature, 13°·7; less by 1°·2.
Rain, Number of Days, 19; greater by 4 days.
Rain, Depth in Inches, 3·75; greater by 0·63 inch.
Wind, Direction of: a 7 days' excess of winds from between S.W. and N.W.

AUGUST 1909—

Mean Barometric Pressure, 29·900 inches; greater than the average by 0·044 inch.
Mean Temperature, 56°·6; being the average.
Mean Daily Range of Temperature, 14°·1; less by 0°·4.
Rain, Number of Days, 18; greater by 2 days.
Rain, Depth in Inches, 2·69; less by 0·99 inch.
Wind, Direction of: a 6 days' excess of winds from S.W., W. or N.W.

SEPTEMBER 1909—

Mean Barometric Pressure, 30·039 inches; greater than the average by 0·173 inch.
Mean Temperature, 51°·2; less by 1°·6.
Mean Daily Range of Temperature, 14°·1; greater by 0°·1.
Rain, Number of Days, 15; less by 1 day.
Rain, Depth in Inches, 2·16; less by 1·36 inch.
Wind, Direction of: a 6 days' excess of winds from N., N.E. or E.

JULY 1909.

Hence the month of JULY 1909 was characterised by a low mean pressure; a low mean temperature, with a low mean daily range; a rather high mean rainfall; and a very large excess of winds from between SW. and NW.

The mean pressure of 29·772 ins. was 0·230 in. below that for June, 0·120 in. below the normal, and the lowest mean for July since 1895. After the first two days pressure seldom reached 30 ins., and the weather was, as a rule, of a westerly to north-westerly type, with frequent depressions coming in from the Atlantic. At Leith the sea-level extremes were 30·255 ins. on 1st and 29·199 ins. on 25th.

The mean temperature was 55°·6, or 1°·7 below the normal, the days being 2°·3 and the nights 1°·1 below their respective averages. The deficiency was, as a rule, well marked, but more decided in Western districts than in Eastern. There was an almost entire absence of high day readings, about one half of the stations, chiefly those in North and West, failing to reach 70° in shade on any single day, whilst the generally cold character of the month was most pronounced during the last ten days when North-westerly winds were frequent. At many places both the highest and the lowest readings for the month occurred within the first two or three days, whilst here and there the maximum fell on 8th or about 14th to 16th, and the minimum on 12th or near the end of the month. The shade extremes were 77° at Kingussie on 1st and at Dundee (Harbour) on 16th, and 33° at Leadhills and West Linton on 1st. A ground frost occurred in a few districts on 1st.

The mean rainfall was 3·75 ins., or 20 per cent. above the normal. The Border counties, Central Perthshire, and some Northern districts had a well-marked shortage, and the Orkneys a slight deficiency. Elsewhere there was an excess of varying amount, as much as 60 per cent. at Aberdeen, and decidedly more in the extreme South-West. At Pinnore (South Ayrshire) a total of 7·70 ins. was more than twice the normal and considerably above any other July rainfall at that place back to at least 1866. Some rather heavy falls took place in various districts between 3rd and 9th ($\frac{3}{4}$ in. at Aberdeen on both 6th and 9th), followed by a short spell of four or five fine days in many places. On 15th, Rothesay and Poltalloch had all but 1 inch, and Lochbuie 1·30 inch; and on 20th several Western stations 1 inch or over. From 20th onwards the weather was extremely unsettled, and the outstanding feature of the month was a heavy rainstorm in the East and South on 25th, when Colinsburgh reported nearly 2½ ins. in 24 hours, Aberdeen and Perth 1½ inch, and many stations more than 1 inch. The Northern limit of the affected area appears to have been very sharply defined, Glasgow having about 1 inch, but Helensburgh and Rothesay only nominal amounts. The number of days with rain was as a rule much above the normal, as many as 30 at Glencarron.

Wind force was occasionally very high, and the heavy rains of 25th were accompanied by a gale from N. and NW., with very general thunderstorms along the East Coast.

Many of the sunshine aggregates agreed closely with their normals, and were much the same as those for June, except at Western stations, Oban having fully 3 hours per day less than in June (June 229 hours, July 127 hours).

Coast fog was frequent round the North of Scotland early in the month.

Auroras were not observed.

AUGUST 1909.

Hence the month of AUGUST 1909 was characterised by a rather high mean pressure; an average mean temperature, with a fractionally low mean daily range; a rather low mean rainfall; and a large excess of winds from between SW. and NW.

The mean pressure was 29·900 ins., or 0·044 in. above the normal. For the first two weeks a high pressure system prevailed, whilst from 15th onwards pressure was low and rather variable and reached 30 inches only on 27th and 28th. At Leith the sea-level extremes were 30·247 ins. on 5th and 29·512 ins. on 30th.

The mean temperature of 56°·6 was 1° above that for July, and just equal to the normal for the month, a slight temperature excess in East and South being balanced by a slight deficiency elsewhere. The mean daily range was very close to the normal, the days being 0°·2 below and the nights 0°·2 above their respective averages. The cold weather which had characterised July continued during the first two or three days of August, but thereafter temperature rose very decidedly and there was a spell of warm, sunny weather of more than a week's duration. The week ending on 14th proved much the warmest of the summer, and had in some districts a mean temperature fully 4° above that of any other week. Thereafter temperature was rather variable, and towards the end of the month, with frequent winds from the North, much below the average, especially during the day. During the warm weather of the second week a few stations reached 80° in the shade, and Dundee (Harbour) 82° on 9th. The lowest readings of the month occurred on 3rd, 26th, or 30th, Balmoral reporting 30° in shade on 3rd, with an exposed reading of 28°.

The mean rainfall was 2·69 ins., or 27 per cent. below the normal. The extreme South had only about half its normal amount, and there was a fairly well-marked

shortage in nearly all districts, but more pronounced in the East than in the West. The Orkneys and the extreme North had, however, a slight excess. Moderate falls during the opening days ($\frac{3}{4}$ in. at Crieff on 1st) were followed by a practically rainless spell from 5th to 11th, and this was prolonged in many districts. On 12th, rather heavy falls occurred in the North-West, whilst from 19th onwards conditions were unsettled, though there were several fine days. On 19th, Fort-William had $1\frac{1}{4}$ inch; and on 28th heavy falls were very general, 1 inch at Buchlyvie, and nearly 1 inch at Glasgow, Greenock, and Paisley.

Wind reached gale force at some outlying places on 3rd and 4th, 12th, or 19th. Thunderstorms occurred at some widely scattered places, from Tillypronie south to Leadhills, on 16th; and at Gordon Castle and many eastern stations on 21st.

Sunshine aggregates were, on the whole, slightly above the normal, but Aberdeen had a slight deficiency. During the fine weather of the second week, Edinburgh had an aggregate of 60 hours against a total of only 5 hours at Castlebay (Barra).

Coast fog was experienced to a trifling extent in North and West from 6th to 15th.

Auroras observed in Orkney and Shetland on 2nd and 4th.

SEPTEMBER 1909.

Hence the month of SEPTEMBER 1909 was characterised by a very high mean pressure; a low mean temperature, with a normal mean daily range; a low mean rainfall; and a large excess of winds from a North-Easterly quarter.

The mean pressure was 30·039 ins., or 0·173 ins. above the normal. At Leith, the sea-level extremes were 30·417 ins. on 14th, and 29·271 ins. on 6th, pressure there being continuously above 30 inches from 8th to 20th, and from 23rd to 28th. The only deep depression of the month crossed our area between 4th and 6th.

The mean temperature was 51°·2, or 1°·6 below the normal. Day and night readings were equally deficient, and, considering Scotland as a whole, the month appears to have been the coldest September since 1897, though at some Western stations the mean for the month practically agreed with the normal. Temperature remained continuously low, and there was an almost entire absence of even moderately high day readings. Only a few stations reached 70° in the shade, and at Glasgow (Observatory) a maximum of 60° or over was reached on only four days. Highest readings occurred about 9th or 10th, 17th or 18th, and 23rd; and lowest on 1st or 2nd, or between 14th and 16th. The absolute maximum of 71° was reached at Perth, Stronvar, and Buchlyvie on 10th, and at Kingussie on the following day; whilst the absolute minimum was 26° at Balmoral on 16th. At West Linton, ground frost occurred on 9 days.

The mean rainfall was 2·16 ins., or 39 per cent. below the normal. There was a local excess in the Edinburgh area and in part of Orkney, and about the average rainfall in East Lothian and Berwickshire; but, as a rule, there was a well-marked shortage, and fully one-third of the country, made up of Central and Western districts, received less than half its normal rainfall. At Glencarron, Fort-William, Stronvar, and Greenock there was a deficiency of 60 per cent. The greater part of the month's rain fell between 3rd and 6th, and between 21st and 28th, whilst the period from 9th to 18th was rainless, or all but so, in many districts. Rather heavy falls occurred on 3rd, 5th, and 6th; on 21st, Edinburgh had half-an-inch; and on 27th, Drumlanrig 1·18 in., and most stations in South-East and South more than half-an-inch. On 24th, a thunderstorm in Orkney caused very heavy local falls, as much as 1·68 in. at Kirkwall.

Gales were experienced on nearly all coasts on 6th or 7th.

Thunderstorms at Balmoral on 3rd; at Edinburgh, Glasgow, and elsewhere on 23rd; and in Orkney on 24th.

The sunshine aggregates were deficient on the East Coast, but above the normal towards the North-West, varying from 155 hours at Oban to 93 hours at Deerness. At Edinburgh (Blackford Hill), the six days from 23rd to 28th were absolutely sunless.

Coast fog was fairly general between 10th and 12th; and occurred in East and North from 23rd to 25th.

Auroras observed at Baltasound on 10th, 16th, 19th; in Orkney on 21st; and at Deerness and many Western stations on 25th—when a "magnetic storm" of considerable intensity occurred.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 9 years 1901–1909.

The amount of cloud is estimated on a scale of 0–10, and a day is reckoned as a day of "clear sky" if the average of the estimates at the hours of observation is less than 2, and as an "overcast" day if the average is greater than 8.

Sumburgh Head - -	The Meteorological Office.	Helensburgh - - -	James Andrew, Water Trust.
ORKNEY—		Dumbarton - - -	William Denny and Brothers.
Deerness - - -	M. Spence.	ARGYLL—	
Kirkwall - - -	A. G. Spence.	Laudale - - -	The Meteorological Office.
CAITHNESS—		Lochbuie - - -	W. J. Burrell, for The MacIaine of Lochbuie.
Wick - - -	The Meteorological Office.	Airds - - -	A. M'Lachlan, for Colonel Macfie, C.B.
SUTHERLAND—		Oban - - -	Edwin Bailey, M.D., M.O.H.
Dunrobin - - -	D. Melville, for the Duke of Sutherland, K.G.	Poltalloch - - -	D. S. Melville, for Colonel Malcolm.
ROSS AND CROMARTY—		BUTE—	
Strathpeffer - - -	The Meteorological Office.	Rothsay - - -	D. Penney, Glenburn Hydro.
Glencarron - - -	D. D. Munro.	RENFREW—	
Stornoway - - -	The Meteorological Office.	Greenock - - -	D. Macalister, C.E., Water Trust.
INVERNESS—		Paisley - - -	D. Maclean, The Coats Observatory.
Monach - - -	Principal Keeper of the Lighthouse.	AYR—	
Castlebay (Barra) -	The Meteorological Office.	Kilmarnock - - -	Glenfield & Kennedy, Ltd.
Inverness - - -	W. G. MacConnachie, M.A.	Bowhill - - -	A. Gillespie, C.E.
Fort Augustus - - -	Rev. Cyril von Dieckhoff, O.S.B.	Colmonell - - -	Andrew Ogg, for W. M'Connell of Knockdolian.
Fort William - - -	W. T. Kilgour.	LANARK—	
Kingussie - - -	W. de Watteville, M.D.	Glasgow (Belvidere Hospital)	J. Brownlee, M.D.
NAIRN—		Glasgow (The Obser- vatory)	Prof. L. Becker, Ph.D., F.R.S.E.
Nairn - - -	The Meteorological Office.	Bothwell - - -	J. T. Wilson, M.D.
BANFF—		Leadhills - - -	J. M'Farlane.
Gordon Castle - - -	C. Webster, for the Duke of Richmond and Gordon, K.G.	EDINBURGH—	
ABERDEEN—		Edinburgh (Blackford Hill)	Prof. F. W. Dyson, F.R.S.
Balmoral - - -	J. Michie, M.V.O., and J. M. Troup.	Corstorphine - - -	T. N. Johnston, M.B., F.R.S.E.
Logie Coldstone - -	J. B. Anderson, The School- house.	Leith - - -	J. Bolam and G. Redpath.
Loanhead - - -	A. Farquharson.	Dalkeith - - -	J. Whytock, for the Duke of Buccleuch, K.G.
Tillypronie - - -	R. Littlejohn, for Sir John F. Clark, Bart.	HADDINGTON—	
Aberdeen (Duthie Park)	P. Harper.	Smeaton - - -	Thomas Braidwood, for Sir A. Buchan-Hepburn, Bart.
Aberdeen (King's College)	The Meteorological Office.	Haddington - - -	D. Macrae.
KINCARDINE—		BERWICK—	
Crathes - - -	J. Smith.	Marchmont - - -	J. A. Wood.
FORFAR—		Duns - - -	J. Redpath, for F. S. Hay.
Montrose (Royal Asylum)	J. Masson.	PEEBLES—	
Arbroath - - -	J. Campbell, for the Natural History Association.	West Linton - - -	Rev. J. S. Begg.
Lednathie - - -	W. G. Lindsay, for P. Stor- month Darling.	ROXBURGH—	
Dundee (Eastern Neopolis)	J. Carnochan, Curator of Parks.	Broomlands - - -	J. Brunton.
Dundee Harbour - -	J. H. Thompson.	Wolfelee - - -	W. Steedman, for Major Elliot.
Balruddery - - -	G. Davie, for J. Martin White.	DUMFRIES—	
PERTH—		Drumlanrig - - -	D. Inglis, for the Duke of Buccleuch, K.G.
Perth - - -	A. M. Rodger, The Museum.	Dumfries - - -	Thomas Young, for C. C. Easterbrook, M.D.
Crieff - - -	Dr Meikle and G. Reid.	KIRKCUDBRIGHT—	
Stronvar - - -	G. Dickson, for J. Carnegie.	Cargen - - -	A. Peacock, for Colonel R. F. Dudgeon.
FIFE—		Cally - - -	W. Thomson, for Colonel F. Murray Baillie.
Cupar - - -	A. R. Turnbull, M.D., Fife and Kinross Asylum.		
Colinsburgh - - -	Rev. Robert Dick.		

REGISTRARS' NOTES.

In compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

2. Orkney.

31. STRONSAY.—Death-rate much above the average. Of the eight deaths registered, three are of persons aged 78, 83, and 92 years respectively. During the first month of the quarter, influenza assumed an epidemic form, and was a contributory cause of several deaths. During the latter half of September there have been quite a number of cases of German measles, and a few cases of enteric fever, both of a mild type so far.

33 (1). WESTRAY.—Births very much below the average.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

58 (1). APPLECROSS.—The two persons whose deaths were registered were aged 80 and 84 years respectively.

67. GLENSHIEL.—The three children whose births were registered were triplet and illegitimate. Two of them have died since.

71 (1). KINCARDINE.—The ages of the five persons whose deaths were registered were 52, 79, 80, 94, and 95 years respectively.

75 (2). COIGACH.—The unusual number of deaths registered in August is due to a boating accident whereby four men lost their lives.

80. ROSEMARKIE.—Of the six deaths registered, two are of persons aged 80 years, and one of a woman aged 93 years.

6. Inverness.

Mainland.

97 (2). KNOYDART.—The death registered is that of a man 89 years of age.

Insular.

119. STRATH.—The average age of the five persons whose deaths were registered in September is 79.2 years.

III. NORTH-EASTERN DIVISION.

9. Banff.

148. BOTRIEPHNIE.—The only death registered is that of an infant. There have been some cases of scarlet fever, but no deaths therefrom.

10. Aberdeen.

173. AUCHTERLESS.—The number of births is above the average, the number of illegitimate births being excessive. Of the five deaths, one is that of an itinerant saw-trimmer, aged 80 years, who was found dead in a barn.

183 (2). CRATHIE.—The average age of the four persons whose deaths were registered is 78 years. The oldest of the deceased was a male aged 83 years.

208. KILDRUMMY.—The two illegitimate children whose births were registered in September were twins.

222*a*. MIDMAR.—The death registered was the result of a motor-car accident, the chauffeur being killed instantaneously.

231 (2) WEST PETERCULTER.—Two of the four deaths are those of visitors, aged 1 year and 78 years respectively.

239. SLAINS.—Of the three deaths, two are those of females aged 81, and one is that of a man aged 65, who met his death by drowning.

240. STRATHDON.—Births considerably below the average.

11. Kincardine.

253. BENHOLM.—Hooping-cough of a mild type prevalent during the quarter.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

305. LUNAN.—Prior to that recorded in August, there had been no death in the parish for eleven months.

13. Perth.

328*a*. ALYTH.—Of the fourteen deaths registered, five are of persons whose ages ranged from 69 to 93 years.

330. AUCHTERGAVEN.—One of the deaths registered is that of a cyclist, who was killed through colliding with a motor-car.

341*a*. COMRIE.—The only death registered is that of a prematurely born child. Births registered number ten.

345. DRON.—The birth of twin children was registered in September, this being the second such occasion during the present year.

388. PORT OF MENTEITH.—Two of the deaths were caused by phthisis pulmonalis, and one by appendicitis.

14. Fife.

415. CERES.—Scarlet fever of a mild type has been prevalent. One death resulted therefrom.

452. PITTENWEEM.—For the second successive quarter, no marriages have been registered.

454. ST MONANGE.—The five persons whose deaths were registered were aged 3 weeks and 72, 73, 77, and 94 years respectively.

458*b*. TULLIALLAN.—Of the ten deaths, four are of persons aged from 70 to 86 years respectively.

V. WEST-MIDLAND DIVISION.

17. Stirling.

473. BONNYBRIDGE.—Death-rate the lowest on record.

476. DENNY.—The registers for July contain the entries of the birth and death of a premature malformed child, of unknown sex.

19. Argyll.

Mainland.

515. KILBRANDON and KILCHATTAN.—Birth-rate exceptionally low all year. Dulness in the slate trade, the principal industry, has caused many families to leave the district. This is probably the cause of the falling off.

525 (1). LISMORE.—The low birth-rate in this district is due to the advanced age of so many of the inhabitants.

526. LOCHGILPHEAD.—Of the twenty-one deaths, ten are of persons aged over 70 years.

Insular.

542. KILFINICHEN and KILVICKEON. — The five deaths are of persons whose ages averaged 85.2 years.

20. Bute.

553 (2). KILBRIDE.—Scarlatina of a mild type broke out at the beginning of September, but no case proved fatal. Lamlash Public School was closed for a month.

556. LOCHRANZA. — The birth and death registered refer to the same child.

558. ROTHESAY.—There occurred during the quarter thirty cases of scarlet fever and nineteen of diphtheria. One of the latter proved fatal, but none of the former. Of the forty-four deaths, fifteen are of persons non-resident, while the average age in twenty-six cases is 70½ years. Births much below the average.

VI. SOUTH-WESTERN DIVISION.

21. Renfrew.

567 (2). GOUROCK. — Of the fifty-two deaths registered, twenty-four occurred in Smithston Poorhouse and seven in the Combination Fever Hospital.

572 (2). BARRHEAD and LEVERN. — For the first time since at least 1879, no illegitimate birth has been registered during the quarter.

22. Ayr.

578 (3). ALLOWAY. — Of the nineteen deaths registered seventeen are of persons who died in Ayr District Asylum. The two others are of persons aged 1 month and 71 years respectively.

607. MUIRKIRK.—Compared with the figures for the corresponding quarter of last year, births are twenty fewer, and deaths ten more.

613 (2). CATRINE.—Two of the deaths were of persons aged 85 and 89 years respectively.

VII. SOUTH-EASTERN DIVISION.

25. Edinburgh.

674. BORTHWICK.—Two deaths have resulted from an epidemic of whooping-cough.

677. COLINTON. — Of the twelve illegitimate births registered, eight took place in Craiglockhart Poorhouse, and in two other cases the mothers were domiciled elsewhere. Of the forty-seven deaths, thirty-one occurred in the above Poorhouse.

689. INVERESK and MUSSELBURGH.—Illegitimate births much above the average.

696. NEWTON.—The two male deaths registered in July were the result of a colliery accident. Neither of the deceased was resident in the parish.

26. Haddington.

717. PRESTONKIRK. — Of the ten deaths registered, four were of inmates of the County Combination Poorhouse.

27. Berwick.

737. ECCLES.—The ages of the three persons whose deaths were registered were 69, 73, and 84 respectively.

VIII. SOUTHERN DIVISION.

30. Roxburgh.

783. BOWDEN.—No death registered since April 12.

795. LILLIESLEAF.—Measles prevalent during July and August. No fatal cases.

799 (1). MELROSE.—Of the twelve deaths three occurred in the District Asylum.

801. MOREBATTLE.—Of the six deaths registered, four are of persons whose ages ranged from 72 to 86 years.

31. Dumfries.

814. CANONBIE.—Of the six deaths registered, two are of infants and three of persons aged over 70 years.

836. KIRKMICHAEL.—In the case of one of the

illegitimate births, the mother was only 16 years of age.

32. Kirkcudbright.

856. BALMACLELLAN.—Of the three deaths registered, one is that of an unknown man found dead from suffocation, and another was caused by hanging.

870. KIRKBEAN.—Of the five deaths registered, two of the deceased were over 80, and one over 70 years of age, their united ages amounting to 239 years, an average of 79·6 years.

INDEX TO THE DISTRICTS.

* The actual number of Districts is 1079—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

OLIVER & BOYD, EDINBURGH.

1910.

REPORT.

During the quarter ending 31st December 1909, there were registered in Scotland the births of 30,352 living children, the deaths of 19,683 persons, and 7033 marriages. Compared to the numbers registered in the previous quarter, the births of this quarter are 834 fewer, the deaths 4719 more, and the marriages 744 fewer. Compared to the numbers registered in the fourth quarter of the previous year 1908, the births of this quarter are 259 fewer, the deaths 1667 more, and the marriages 102 fewer. Compared to the average numbers registered in the fourth quarters of the previous ten years, those averages being adjusted to allow for the increase of the estimated population, the births of this quarter are 3071 fewer, the deaths 454 fewer, and the marriages 1602 fewer. The number of births registered is less than the number registered in Scotland in any fourth quarter since 1895, the deaths are more than those registered in any fourth quarter since 1901, the marriages are fewer than those registered in any fourth quarter since 1887.

TABLE I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND, its Groups of Districts and Divisions during the Quarter ending 31st December 1909, with their Proportion to the Population; also the Illegitimate Births and their Proportion to the Total Births.

BIRTHS.

Births registered in Scotland during the quarter numbered 30,352, and for that number the equivalent annual birth-rate is 24·7 per thousand of the estimated population, a rate which is 0·7 below that of the previous quarter, 0·5 below that of the corresponding quarter of the previous year, and 2·5 less than

the mean of the birth-rates of the fourth quarter of the previous ten years. It is the lowest quarterly Scottish birth-rate yet recorded in these reports, which now cover a period of fifty-five years, and is the first quarterly Scottish birth-rate to be below 25. The previous lowest quarterly birth-rate was that of the fourth quarter of 1908, which was 25·2 per thousand.

The birth-rate of the quarter in the groups of registration districts ranged from 27·9 in the Large Town Districts, to 21·0 in the Insular-Rural Districts. In the Small Town Districts it was 26·7, in the Mainland-Rural Districts 23·9, and in the Principal Town Districts 23·5. Compared to the birth-rates of the fourth quarter of the previous year, that of the Principal Town Districts is 1·2 less, that of the Large Town Districts 0·2 less, and that of the Small Town Districts 0·5 less; but that of the Mainland-Rural Districts is 1·1 more, and that of the Insular-Rural Districts 0·7 more.

TABLE II.—Percentage of the Illegitimate Births to the Total Births in the Counties of Scotland during the Quarter ending 31st December 1909.

Banff	15·8	Bute	7·5	Dumfries	11·0
Aberdeen	12·5	Renfrew	4·9	Kirkcudbright	11·2
Kincardine	7·0	Ayr	6·1	Wigtown	11·8

In the Divisions of the Counties the birth-rate of the quarter ranged from 25·8 in the South Western, to 21·3 in the North Western. In the North Eastern it was 25·6, in the West Midland 25·5, in the East Midland 24·0, in the South Eastern 23·2, in the Southern 21·8, and in the Northern 21·5.

In the Eight Principal Towns the birth-rate of the quarter ranged from 25·1 in Dundee, to 19·5 in Edinburgh. In Leith it was 24·9, in Glasgow 24·1, in Aberdeen 24·1, in Greenock 23·9, in Perth 21·5, and in Paisley 21·1. Compared to the birth-rate of the fourth quarter of 1908, that of Glasgow is 1·0 less, that of Edinburgh 0·4 less, that of Dundee 1·2 less, that of Aberdeen 0·1 less, that of Paisley 0·9 less, that of Leith 0·6 less, and that of Greenock 2·7 less, but that of Perth is 1·9 more.

Of the 30,352 living children whose births were registered during the quarter, 2082, or 6·9 per cent., were illegitimate. These births are 115 fewer than those of the previous quarter, but 124 more than those of the fourth quarter of the previous year. The illegitimate rate is 0·1 less than that of the previous quarter, but 0·5 more than that of the corresponding quarter of the previous year.

The illegitimate rate of the quarter in the Groups of Registration Districts

ranged from 8·4 in the Mainland-Rural Districts, to 4·8 in the Insular-Rural Districts. In the Principal Town Districts it was 7·1, in the Small Town Districts 6·3, and in the Large Town Districts 5·3. In the Divisions of the Counties this rate ranged from 12·4 in the North Eastern, and 10·8 in the Southern, to 5·0 in the West Midland, and 5·3 in the North Western. In the East Midland it was 6·6, in the South Eastern 6·4, in the Northern 6·3, and in the South Western 6·0. In the counties this rate ranged from 15·8 in Banff, 12·5 in Aberdeen, 12·5 in Peebles, and 12·4 in Elgin, to 3·2 in Shetland, 3·3 in Dumbarton, and 3·8 in Linlithgow. In nine counties this rate exceeded 10 per cent., in sixteen counties it was between 5 and 10 per cent., in eight counties it was less than 5 per cent.

Of the living children whose births were registered during the quarter, 15,603 were male and 14,749 female, the ratio of male to female births thus was 105·8 to 100.

The average number of births registered daily in October was 330, in November 327, and in December 333.

The birth-rate of the quarter in England and Wales was 24·3, which is 0·4 less than the quarterly Scottish birth-rate.

DEATHS.

Deaths registered during the quarter numbered 19,683, and for that number the equivalent annual death-rate is 16·0, a rate which is 3·8 above that of the previous quarter, and 1·2 above that of the corresponding quarter of 1908, but is 0·4 less than the mean of the death-rates of the fourth quarters of the previous ten years.

The death-rate of the quarter in the groups of registration districts ranged from 17·2 in the Principal Town Districts, to 13·6 in the Insular-Rural Districts. In the Large Town Districts it was 16·1, in the Mainland-Rural Districts 14·9, and in the Small Town Districts 14·6. Compared to the rates of the fourth quarter of the previous year, that of the Principal Town Districts is 2·2 more, that of the Mainland-Rural Districts 1·0 more, that of the Insular-Rural Districts 0·5 more, and that of the Large Town Districts 0·2 more; but that of the Small Town Districts is 0·1 less.

In the divisions of the counties the death-rate of the quarter ranged from 17·6 in the South-Western, to 13·4 in the North-Eastern. In the Southern it was 16·2, in the East-Midland 15·5, in the West-Midland 15·0, in the South-Eastern 14·7, in the North-Western 14·2, and in the Northern 14·0.

The death-rate in the eight Principal Towns ranged from 21·0 in Glasgow, to 13·2 in Leith. In Dundee it was 17·1, in Perth 16·7, in Greenock 15·0, in Edinburgh 14·9, in Paisley 14·3, and in Aberdeen, 13·7. In Edinburgh, Aberdeen, Paisley, Leith, and Greenock, the death-rate of the quarter was less than the national death-rate. Compared to the corresponding death-rates of the fourth quarter of the previous year, that of Glasgow is 4·7 more, that of Perth 2·8 more, that of Paisley 0·9 more, and that of Edinburgh 0·6 more; but that of Dundee is 1·3 less, that of Leith 1·1 less, that of Greenock 0·9 less, and that of Aberdeen 0·2 less.

Of the total deaths registered during the quarter, 9724 were of males and 9959 of females.

The average number of deaths registered daily in October was 159, in November 230, and in December 254.

The death-rate of the quarter in England and Wales was 14.1, which is 1.9 less than the Scottish quarterly death-rate.

MARRIAGES.

Marriages registered during the quarter numbered 7033, and for that number the equivalent annual marriage-rate is 5·7 per thousand, a rate which is 0·6 less than that of the previous quarter, 0·2 less than that of the fourth quarter of the previous year, and 1·3 less than the mean of the marriage-rates of the fourth quarters of the previous ten years. It is the lowest marriage-rate of a fourth quarter recorded in these reports, now covering a period of fifty-five years, the previous lowest recorded being that of the fourth quarter of 1908, and it is lower than all quarterly marriage-rates subsequent to that of the third quarter of 1887.

In the groups of registration districts the marriage-rate of the quarter ranged from 6·2 in the Principal Town Districts, to 3·6 in the Insular-Rural Districts. In the Large Town Districts it was 5·6, in the Small Town Districts 5·6, and in the Mainland-Rural Districts 5·1. Compared to the corresponding rates of the fourth quarter of the previous year, those of the Small Town Districts, and of the Mainland and Insular-Rural Districts, are each 0·2 less, and that of the Principal Town Districts is 0·1 less, but that of the Large Town Districts is of the same amount.

In the divisions of the counties the marriage-rate of the quarter ranged from 6·7 in the East-Midland, to 4·3 in the North-Western. In the North-Eastern it was 6·6, in the Southern 6·3, in the South-Eastern 6·1, in the South-Western 5·3, in the Northern 5·2, and in the West-Midland 4·8.

In the eight principal towns the marriage-rate of the quarter ranged from 9·1 in Perth, to 4·8 in Leith. In Aberdeen it was 7·4, in Dundee 7·3, in Edinburgh 6·9, in Glasgow 6·3, in Greenock 5·9, and in Paisley 5·2. The marriage-rates of Dundee, Aberdeen, Paisley, and Perth are higher than those of the fourth quarter of the previous year, but those of Glasgow, Edinburgh, Leith, and Greenock are lower than those of the fourth quarter of the previous year.

The average number of marriages registered daily in October was 60, in November 68, and in December 101.

TABLE IV.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight of the Principal Towns of Scotland, during the Quarter ending 31st December 1909.

TOWNS.	Estimated Population to middle of 1909.	BIRTHS.		DEATHS.		MARRIAGES.	
		Number.	Annual rate per 1000 of Population.	Number.	Annual rate per 1000 of Population.	Number.	Annual rate per 1000 of Population.

Perth.....	36,906	200	21·5	155	16·7	85	9·1

CAUSES OF DEATH IN EIGHT OF THE PRINCIPAL TOWNS.

As fully 38 per cent. of the entire population of Scotland live in eight of the principal towns, namely Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth, it may be assumed that the causes of death found to be prevalent in them are a fairly good indication of the causes of death prevalent generally in Scotland during the quarter. Detail of the causes of death in the remainder of Scotland during the quarter is not yet available.

The estimated aggregate population of these eight towns is 1,865,571. Deaths registered in them during the quarter numbered 8342, and for that number the equivalent annual death-rate is 17·8 per thousand, a rate which is 5·1 more than the corresponding death-rate of the previous quarter, and 2·2 more than the corresponding death-rate of the fourth quarter of the previous year. The combined death-rate of these eight towns in October was 12·2, in November 20·0, and in December 21·1.

Deaths registered in these towns during the quarter from the acutely infectious diseases numbered 778, 116 being registered in October, 292 in November, and 370 in December. The equivalent annual death-rate from these causes is 166 per 100,000, a rate which is 89 above that of the previous quarter, and 68 above that of the corresponding quarter of the previous year. The death-rate from these causes in October was 73, in November 191, and in December 234. These 778 deaths include 415 from measles, of which 365 were registered in Glasgow; 87 from scarlet fever, of which 55 were registered in Glasgow and 18 in Edinburgh; 106 from hooping-cough; 123 from diphtheria, of which 74 were registered in Glasgow, 20 in Edinburgh, 11 in Aberdeen, and 7 in Paisley; 47 from "fevers," of which 33 were due to enteric fever, 2 to typhus fever, and 12 to cerebro-spinal meningitis. Of the deaths from enteric fever 30 were registered in Glasgow, 2 in Edinburgh, and 1 in Aberdeen. The deaths from typhus fever were registered in Glasgow and in Leith respectively. Of the deaths from cerebro-spinal meningitis, 5 were registered in Glasgow, 5 in Edinburgh, and 2 in Aberdeen. The quarterly death-rate of the eight towns from measles is 88 per 100,000, from scarlet fever 19, from hooping-cough 23, from diphtheria 26, from enteric fever 7, and from cerebro-spinal meningitis 3.

Deaths from diarrhoeas, including those registered as due to enteritis and gastro-enteritis, numbered 188; they are 123 fewer than those registered in the eight towns during the previous quarter, and 134 fewer than those there registered during the fourth quarter of the previous year. The equivalent annual death-rate from these causes is 40 per 100,000, a rate which is 26 less than that of the previous quarter, and 30 less than that of the fourth quarter of the previous year. This death-rate in October was 52, in November 39, and in December 29.

Deaths ascribed to tuberculous disease numbered 850; they are 20 more than those registered in the previous quarter, but 33 fewer than those of the fourth quarter of the previous year. The equivalent annual death-rate is 181 per 100,000, a rate which is 4 above that of the previous quarter, but 10 below that of the fourth quarter of the previous year. This death-rate in October was 141, in November 201, and in December 201. Of these 850 deaths 578 were ascribed to phthisis, 105 to tuberculous meningitis, 88 to tuberculous peritonitis or tabes mesenterica, and 79 to other or unspecified form of tuberculous

disease. The death-rate of the quarter from phthisis is 123 per 100,000, a rate which is 19 more than that of the previous quarter, and 3 more than that of the fourth quarter of the previous year, and which in October was 93, in November 138, and in December 138.

Deaths from malignant disease numbered 518; they are 3 fewer than those registered during the previous quarter, but 11 more than those registered during the fourth quarter of the previous year. The equivalent annual death-rate from this cause is 110 per 100,000, a rate which is 1 less than that of the previous quarter, but 1 more than that of the fourth quarter of the previous year. Of these 518 deaths, 306 were ascribed to carcinoma, 31 to sarcoma, and 181 to other or unspecified form of cancer.

Deaths from pneumonia numbered 1097; they are 702 more than those of the previous quarter, and 318 more than those of the fourth quarter of 1908. The equivalent annual death-rate from this cause is 233 per 100,000, a death-rate which in October was 112, in November 256, and in December 332. In the previous quarter, the death-rate from pneumonia was 84, and in the fourth quarter of the previous year 168.

Deaths from bronchitis numbered 1019; they are 788 more than those registered in the eight towns during the previous quarter, and 472 more than those there registered during the corresponding quarter of the previous year. The equivalent annual death-rate is 217 per 100,000, a rate which in October was 71, in November 288, and in December 293, and which is 168 above that of the previous quarter, and 99 above that of the fourth quarter of the previous year.

Deaths from diseases and accidents of pregnancy and childbirth, including those ascribed to puerperal septic conditions, numbered 60; they are 2 more than in the previous quarter, and 7 more than in the corresponding quarter of the previous year.

Deaths of children of less than one year old numbered 1735; they are 540 more than were registered during the previous quarter, and 222 more than those registered during the fourth quarter of the previous year. Births registered in the eight towns during the quarter numbered 10,879, and thus the infantile mortality rate of the quarter amounts to 159 per thousand births, a rate which is 53 more than that of the previous quarter, and 23 more than that of the corresponding quarter of 1908. The infantile mortality rate of the quarter ranged from 182 in Glasgow, to 85 in Perth. In Aberdeen it was 170, in Dundee 153, in Edinburgh 133, in Leith 132, in Paisley 117, and in Greenock 92.

Deaths of children of less than five years old numbered 2926, and constituted 35.1 per cent. of the total deaths of the quarter. Deaths of persons of over sixty numbered 2353, and constituted 28.2 per cent. of the total deaths of the quarter.

Deaths attributed to violent causes numbered 279; they are 11 more than were registered in the eight towns during the previous quarter, but 18 fewer than were there registered during the corresponding quarter of the previous year. Of these deaths, 14 were ascribed to suicide and 265 to accident.

WEATHER.

The Meteorological Returns which appear in the Registrar-General's Monthly Reports, and which refer more particularly to observations made in the eight

Principal Towns enumerated above, show that *October* was characterised by a very low mean pressure; a rather high mean temperature, with a normal mean daily range; a high mean rainfall; and a large excess of winds from S. and S.W. *November* was characterised by a high mean pressure; an extremely low mean temperature, with a very high mean daily range; a very low mean rainfall; and an excess of winds from S.W. and W. *December* was characterised by a very low mean pressure; a very low mean temperature, with a slightly high mean daily range; a rather high mean rainfall; and an excess of winds from N.E. and E.

Observations made *throughout Scotland* show that the mean height of the barometric column, reduced to sea-level and 32° Fahr., was 29·605 inches in October, 29·926 inches in November, and 29·567 inches in December. The mean temperature for the quarter was 40°·7, or 2°·1 below the average mean temperature for the corresponding quarter of the last ten years. The mean temperature in October was 47°·1, in November 39°·1, and in December 35°·8. The absolutely highest temperature recorded in October was 68°, in November 62°, and in December 56°. The absolutely lowest temperature recorded in October was 17°, in November 3°, and in December 0°. The mean number of days on which rain fell was 22 in October, 14 in November, and 18 in December. The mean amount collected was 5·66 inches in October, 2·48 inches in November, and 4·52 inches in December.

N.B.—Districts containing Parliamentary or Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals; thus—CARLUKE. An asterisk “*” is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more, or parts of more than one Parish, the component parts of these Districts will be found on page 45. A dagger “†” is prefixed to those Districts which consist of only a part of the Civil Parish of the same name. † Return not received.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING
TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
2. Orkney.		
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay ..	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
3. Caithness.		
37b	Keiss	Parts of Canisbay and Wick.
5. Ross and Cromarty.		
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross, and part of Gairloch.
59b	Carnoch	Parts of Contin and Urray.
86b	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs, and part of Uig.
6. Inverness.		
92b	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
8. Elgin.		
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
9. Banff.		
152	Enzie	Parts of Bellie and Rathven.
155b	Glenrinnnes	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
10. Aberdeen.		
171b	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210b	Kinmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone, and part of Glenmuick.
222b	Millbren	Parts of Fyvie and Monquhitter.
227b	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdour and Peterculter; (2) Remainder of Peterculter.
237b	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249b	Ythan Wells	Parts of Auchterless and Forgue.
11. Kincardine.		
266	Nigg	Nigg, and part of Aberdeen.
12. Forfar.		
282	Dundee	Dundee Combination, and part of Mains and Strathmartine.
294b	Kilry	Parts of Glenisla and Lintrathen.
13. Perth.		
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhiddel	Balquhiddel, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355b	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle	Meigle, and part of Coupar-Angus.
386b	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenandry	Parts of Blair-Athol and Moulin.
14. Fife.		
402	Anstruther-Easter ..	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457b	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
17. Stirling.		
473	Bonnybridge	Parts of Denny, Dunipace, and Falkirk.

CONSTITUTION OF THE DISTRICTS—*continued*.

No.	Districts.	Component Parts (Parishes).
18. Dumbarton.		
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
19. Argyll.		
504	Ardehatten	Part of Ardehatten and Muckairn.
505	Ardehatten	(1) Parts of Ardehatten, and of Arisaig and Moidart.
506	Ballachulish, etc. ..	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard ..	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan ..	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc.	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilthead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardehatten and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow) ..	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
20. Bute.		
556	Lochranza	Parts of Kilbride and Kilmory.
21. Renfrew.		
559b	Bridge of Weir	Part of Houston and Killellan and of Kilbarchan.
572	Neilston	(1) Part of Neilston; (2) Remainder of Neilston, and part of Paisley.
22. Ayr.		
576	Ardrossan	(1) Parts of Ardrossan and West Kilbride; (2) Remainder of Ardrossan.
578	Ayr (Alloway)	Parts of Ayr and Maybole.
584b	Crosshill	Parts of Kirkmichael, Kirkoswald, and Maybole.
595	Irvine	Irvine, and part of Dundonald.
603	Loudoun (Darvel)	Parts of Loudoun and Galston.
610b	Patna	Parts of Dalmellington, Dalrymple, Kirkmichael, and Straiton.
23. Lanark.		
622	Barony	Part of Glasgow.
626a	Cadder (Eastern district) ..	Parts of Cadder and Glasgow.
626b	Calderhead	Parts of Cambusnethan and Shotts.
644	Glasgow	Parts of Glasgow, Govan Combination, and Rutherglen.
25. Edinburgh.		
685	Edinburgh	Parts of Edinburgh and Colinton.
692	Leith	Leith, and part of Edinburgh.
695b	Newcraighall	Parts of Inveresk and Liberton.
698b	Stobhill	Parts of Borthwick, Cockpen, and Newbattle.
29. Selkirk.		
774a	Caddonfoot	Caddonfoot, and part of Innerleithen.
30. Roxburgh.		
787b	Edgerston	Parts of Jedburgh and Southdean.
31. Dumfries.		
813b	Brydekirk	Parts of Annan, Cummertrees, and Hoddum.
830	Holywood	Holywood, and part of Terregles.
853b	Wanlockhead	Part of Sanquhar.
32. Kirkcudbright.		
857b	Bargrennan	Parts of Minnigaff and Penninghame.
862	Corsock Bridge	Parts of Balmaclellan, Kirkpatrick-Durham, and Parton.
864	Dalbeattie	Part of Urr.
33. Wigtown.		
899	Stranraer	Stranraer, and parts of Inch and Leswalt.

METEOROLOGICAL REPORT

FOR THE MONTHS OF

OCTOBER, NOVEMBER, DECEMBER,

1909.

REPORT ON THE WEATHER OVER SCOTLAND DURING THE QUARTER ENDING 31st DECEMBER 1909.

By A. WATT, M.A., F.R.S.E., under the Direction of the Council of the Scottish Meteorological Society.

THE Report is based on observations made, morning and evening, at Stations of the Scottish Meteorological Society, and at some additional stations whose returns are included by the courtesy of the Meteorological Office. The total number of contributing stations is 70. For list of Observers, see page 66.

SUMMARY OF OBSERVATIONS.

In Table I., the means for the various elements are the arithmetical means of the values at all the contributing stations. That for rainfall does not represent the whole country in a quite satisfactory manner, as stations are more numerous in dry districts than in wet districts: the figures, however, are fairly comparable with the corresponding figures given for former years.

Table II. refers to eight of the principal towns only (*v.* page 7), and is extracted from the Monthly Reports already published by the Registrar General for Scotland.

And when the figures in Table I. and those of wind-direction in Table II. are compared with the averages for 1856–1905, during the same months, they show the following characteristics and differences:—

OCTOBER 1909—

Mean Barometric Pressure, 29·605 inches; less than the average by 0·209 inch.
Mean Temperature, 47·1; greater by 0°·5.
Mean Daily Range of Temperature, 12°·1; being the normal.
Rain, Number of Days, 22; greater by 5 days.
Rain, Depth in Inches, 5·66; greater by 1·62 inch.
Wind, Direction of: a 5 days' excess of winds from S. and S.W.

NOVEMBER 1909—

Mean Barometric Pressure, 29·926 inches; greater than the average by 0·092 inch.
Mean Temperature, 39·1; less by 1°·8.
Mean Daily Range of Temperature, 13°·1: greater by 2°·7.
Rain, Number of Days, 14; less by 3 days.
Rain, Depth in Inches, 2·48; less by 1·32 inch.
Wind, Direction of: a 4 days' excess of winds from S.W. and W.

DECEMBER 1909—

Mean Barometric Pressure, 29·567 inches; less than the average by 0·213 inch.
Mean Temperature, 35°·8; less by 2°·3.
Mean Daily Range of Temperature, 10°·2; greater by 0°·7.
Rain, Number of Days, 18; greater by 1 day.
Rain, Depth in Inches, 4·52; greater by 0·39 inch.
Wind, Direction of: a 3 days' excess of winds from N.E. and E.

OCTOBER 1909.

Hence the month of OCTOBER 1909 was characterised by a very low mean pressure; a slightly high mean temperature, with a normal mean daily range; a high mean rainfall; and a large excess of winds from S. and S.W.

The mean pressure of 29·605 ins. was four-tenths of an inch below that for September, and 0·209 in. below the normal. Until 24th the fluctuations of the barometer were very considerable, the deepest depressions occurring on 5th, 7th, 14th, and 23rd. At Leith, where the sea-level extremes were 30·323 ins. on 31st, and 29·050 ins. on 5th, pressure reached 30 ins. only on 9th, 30th, and 31st.

The mean temperature was 47°·1, or 0°·5 above the normal. This slight excess was equally marked both by day and night, and the month was divided into two sharply distinguished periods. Until 23rd or 24th with winds from between South and West very mild conditions prevailed, whilst during the last week, winds from between North and East were associated with extremely cold weather. Thus at Leith the mean temperature of the week ending 23rd was 51°·5, or 3°·3 above the normal, but that of the following week was 39°·8, or as much as 7°·1 below. The highest temperatures of the month occurred in most districts between 2nd and 5th, but here and there a few days later, the actual highest being 68° at Colinsburgh on 4th, and 66° at Broomlands, Wolfelee, and Paisley on the same day. The lowest readings were recorded towards the close of the month, the actual lowest in the screen being 17° at Kingussie on 31st.

The mean rainfall was 5·66 ins., or 40 per cent. above the normal. In comparison with the average great extremes prevailed. Thus Wick had hardly its normal amount, the South-Eastern fringe of the country a slight excess, and Aberdeen (King's College) with but little more than 2 ins., a deficiency of 28 per cent. On the other hand, large areas towards West and South had aggregates exceeding the normal by 60 to 80 per cent. or more, and Dumfries and Cargen fully two and a half times the average. The largest totals reported were—at Glenquoich 18 ins., Stronvar 14 ins., Leadhills and Cargen 11 ins., and Glencarron 10 ins. The South-Westerly type of conditions which prevailed until 23rd, was accompanied in many districts by almost continuously wet weather, and some heavy rainstorms occurred. Stronvar had more than 1 inch on 7th, 11th, 13th, 14th, 19th, and 22nd, and at most stations one or other of these days was the wettest of the month. Towards the South-East, however, the heaviest falls occurred on 23rd, when stations in Midlothian, East Lothian, and Berwickshire reported more than 1 inch. On 12th, Cargen had more than 2 ins., and on 14th Glenquoich 2½ ins. The last week was rainless or nearly so in many districts. The month, however, ranks as a wet one, though it was much less wet than October 1903, and in some districts not wetter than in 1906 or 1907.

Severe gales were experienced between 6th and 15th, and the heavy rains caused considerable floods in some districts. At the end of the month snow and sleet occurred, but only to a moderate extent.

Thunderstorms in Orkney on 6th, at Kingussie and Balmoral on 11th, in some Western districts on various days between 12th and 20th, and at Colmonell and Cally on 21st and 24th.

Bright sunshine as a rule a little above the average.

But little fog occurred.

Auroras observed at Baltasound on 8th, 16th, 18th, 20th, and 23rd, at Fort Augustus on 9th, and generally in the North on 18th and 19th.

NOVEMBER 1909.

Hence the month of NOVEMBER 1909 was characterised by a rather high mean pressure; a very low mean temperature, with a large mean daily range; a low mean rainfall; and an excess of winds from SW. and W.

The mean pressure was 29·926 ins., or 0·092 in. above the normal. For the first ten days or so, and again from 15th to 25th, pressure was high and steady, whilst around the 12th and during the last five days of the month conditions were very unsettled. At Leith the sea-level extremes were 30·372 ins. on 23rd and 28·851 ins. on 30th.

The mean temperature of 39°·1 was 1°·8 below the normal and the lowest November mean since 1882. The mean day temperature was deficient only slightly, but that of the nights by as much as 3°·2. Roughly speaking, the first week approximated closely to average conditions; the second had a well-marked temperature deficiency; whilst the third and part of the fourth were characterised by a frost of exceptional severity for the time of the year. The cold reached its maximum intensity from 16th to 18th, and on 16th the screened thermometer at Balmoral fell to 3° and that on grass to zero. On the following day, Balmoral and Crathes both reported readings of 4° in the screen, and Crathes a reading on the grass of 5° below zero. At this time the days were extremely cold, and at Aberdeen and Glasgow the mean temperature for the third week was fully 13° below the normal. The warmest days of the month occurred between 2nd and 5th, the highest readings being 62° at Balruddery on 3rd, and 61° at Lednathie and Crieff on the same day.

The mean rainfall was 2·48 ins., or 35 per cent. below the normal. In the extreme North there was a decided excess, Wick having more than twice its normal rainfall; but in most districts there was a well-marked shortage, and this was most pronounced in East, South-East, and South, where at many places the month was the driest of the year. Thus Duns and Perth had only one-fifth of their average amounts, and Dundee, with an aggregate of only 0·31 in., not much more than one-tenth of its average. Early in the month but little rain fell except in North-West and North, Glencarron having more than 1 inch on 9th. On 11th and 12th a severe rainstorm occurred in the North, Wick

having 2·10 ins. on the former day and 1·25 in. on the latter. Thereafter only trifling amounts were recorded anywhere until the last five days of the month, when a very unsettled type of weather prevailed with some heavy falls towards West and North-West on 28th and 29th. Glenquoich, Fort Augustus, and Stronvar had more than 1 inch on each of these days, and Fort William about 2½ ins. on 28th. It is noteworthy that at Dumfries no day before 26th had as much as one-tenth of an inch of rain, and at Edinburgh, Dundee, and Perth no day before 27th, the month being practically rainless until near its close over very considerable areas.

Gales prevailed in North and South-West on 9th, and very generally on 12th, whilst from 13th to 15th a snowstorm of considerable severity occurred in the North.

Thunderstorms at Fort William on 12th and Paisley on 29th.

Bright sunshine was above the normal.

During the intensely cold weather from 16th to 19th, a very dense visitation of fog was experienced at Glasgow and on the lower Clyde, and a good deal on the Firth of Forth.

Auroras observed at Baltasound on 7th, 10th, 21st and 30th, at Cromarty on 16th and 17th, and at Fort Augustus on 19th and 20th.

DECEMBER 1909.

Hence the month of DECEMBER 1909 was characterised by an extremely low mean pressure; an extremely low mean temperature, with a slightly high mean daily range; a slightly high mean rainfall; and an excess of winds from N.E. and E.

The mean pressure of 29·567 ins. was 0·213 ins. below the normal, and the lowest December mean since 1901. The only well-defined period of high pressure was from about 12th to 16th, and outside these dates the type of weather was mainly cyclonic. At Leith, the sea-level extremes were 30·652 ins. on 14th, and 28·378 ins. on 3rd.

The mean temperature was 35°·8, or 2°·3 below the normal, the month being on the whole the coldest December since 1899. The days were 1°·9 and the nights 2°·6 below their respective averages, and the temperature deficiency was most decided towards the North-West. The deficiencies at the individual stations ranged from 5°·0 at Fort William to only 0°·2 at Marchmont. Some extremely cold weather was experienced during the first three weeks or so, except from about 9th to 11th, when strong South-Westerly winds prevailed and highest temperatures of the month, as a rule, occurred. Lowest temperatures were noted very generally on 6th and 7th, but here and there about 21st. On 7th, the screened thermometer at Balmoral fell to zero, and on 8th at West Linton to 6°. During the last week mild conditions prevailed, and temperature was decidedly above the average. The highest readings reported were 56° at Leith on 10th, and 55° at Oban and elsewhere on the same day.

The mean rainfall was 4·52 ins., or 9 per cent. above the normal. Towards North and North-West there was a well-marked deficiency, amounting to 40 per cent. at Glencarron and Fort Augustus. Elsewhere there was, as a rule, an excess, which at Cargen, near Dumfries, amounted to fully 50 per cent. Heavy falls occurred in the South-Eastern counties on 2nd, Duns having fully 1½ in.; but the outstanding feature of the month was a very severe rainstorm in South and West on 9th, when Lochbuie had more than 6 ins., Greenock and Kinlochquoich fully 4 ins., and many stations from 1 to 3 ins. or more. On 10th and 11th, rather heavy falls occurred, 1½ in. at Aberdeen (King's College) on 11th; but thereafter but little rain fell until the 21st or later. Towards the close of the month conditions were very unsettled, some heavy falls occurring from 25th to 27th, Buchlyvie having more than 2 ins. on 26th, and several widely scattered stations, such as Glencarron, Crieff and Dumfries, more than 1 in. on the following day.

Gales occurred more or less generally on 2nd and 3rd, on 9th and 10th, and on 21st and 22nd. Snow early in the month, and very severe snowstorms in the North on 17th or following days, and very generally on 21st.

Thunder at Fort Augustus on 6th, in Orkney on 19th, at Baltasound on 20th, and at Stronvar on 23rd.

Bright sunshine was above the average.

A good deal of fog occurred in the Firth of Forth from 4th to 11th, and in the Moray Firth from 12th to 15th.

Auroras observed somewhat frequently, at Gordon Castle on 2nd, in Orkney and Shetland and on the West Coast on 14th, in Shetland on 17th, at Inverness on 21st, and at Deerness, Aberdeen, and Fort Augustus on 31st.

Note.—The averages for Temperature and Rainfall referred to in the returns for individual stations are for the 40 years 1866–1905, but at the stations whose returns are supplied by the Meteorological Office the averages are for the 35 years 1870–1905. For stations where the actual observations do not cover the entire period of 35 or 40 years, the averages have been adjusted by comparison with neighbouring stations. The Sunshine averages are, as a rule, for the 25 years 1880–1905, but at Edinburgh (Blackford Hill) for the 9 years 1901–1909.

The amount of cloud is estimated on a scale of 0–10, and a day is reckoned as a day of “clear sky” if the average of the estimates at the hours of observation is less than 2, and as an “overcast” day if the average is greater than 8.

REGISTRARS' NOTES.

In compliance with the following Instructions, many of the Registrars have appended remarks to their Returns, from which the subjoined Notes have been selected. The Registrars alone must be considered responsible for the opinions which they express.

INSTRUCTIONS TO REGISTRARS.

"If, at any time, the Births (whether legitimate or illegitimate), the Deaths, or the Marriages registered during the Quarter have been above or below the average, here state what you consider to be the cause, and whether epidemics, such as Measles, Typhus, Cholera, etc., have prevailed in the District; or if there is any other fact in the character of the Weather, Sanitary or Social Arrangements, Movement of the Population, etc., which will account for the circumstance."

The Figures refer to the Numbers of the Districts in the preceding Tables.

I. NORTHERN DIVISION.

2. Orkney.

33 (2). PAPA-WESTRAY.—Two of the three deaths registered were of persons aged over 85 years.

3. Caithness.

34. BOWER.—A few couples resident in the parish were married during the quarter, but the ceremony took place elsewhere.

41. THURSO.—Of the twenty-one deaths, eight were of persons aged over 70 years, and five of children aged under 8 months.

4. Sutherland.

44 (2). STOER.—The number of births (twenty-three) registered during the year is the lowest ever recorded, being 30·5 per cent. less than that for last year, and 39 per cent. less than the average for the last ten years. Emigration to a great extent accountable for the decrease. Deaths are 3 per cent. over the average of the last ten years.

45. CLYNE.—The proportion of female births to male (ten to two) is unusual. The number of deaths registered during the year is one of the lowest recorded.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

58 (1). APPLECROSS.—The two deaths registered were of females aged 74 and 83 years respectively.

59a. AVOCH.—Compared with corresponding quarter of last year, deaths number less than half.

75 (1). LOCHBROOM.—The Registrar has now completed his 55th year of service, having occupied his present position during the whole period of compulsory registration in Scotland.

6. Inverness.

Mainland.

104. LAGGAN.—No deaths have been registered during the past seven months, and only five throughout the year.

106. PETTY.—It is noteworthy that no events were registered during December.

Insular.

114 (2). RAASAY.—Only three deaths have been registered during the year, the lowest number for the last fifty years.

III. NORTH-EASTERN DIVISION.

8. Elgin.

126. BELLIE.—The average age of the six persons who died during the quarter was 82 years.

130. DRAINIE.—Four of the deaths were of persons aged 70 years and upwards, and one was a case of suicide by drowning.

136. NEW SPYNIE.—The births registered were all illegitimate, and all took place in the poorhouse.

9. Banff.

149b. CABRACH.—There has not been a single marriage registered during this year. The number of marriages contracted between parties, one or both of whom resided in the parish, has been above the average, but in every case the marriage was solemnised in a neighbouring town.

10. Aberdeen.

180. CLATT.—No death has occurred here during 1909.

183 (1). BRAEMAR.—The deaths are largely in excess of the births, but they are all of old persons.

208. KILDRUMMY.—The two deaths registered were those of a male aged six hours and a female aged 77 years. Scarlet fever occurred in one family, but no deaths therefrom.

217. LOGIE-COLDSTONE and CROMAR.—The ages of the five persons whose deaths were registered ranged from 64 to 87 years.

222b. MILLBREX.—The death registered was that of a crofter aged 89 years.

229. MELDRUM.—Of the eight deaths registered, six were of persons whose ages ranged from 73 to 90 years.

235 (2). INVERALLOCHY.—The number of births registered during the year is the highest ever recorded in this District.

239. SLAINS.—The two deaths were of persons aged 77 and 86 years respectively.

11. Kincardine.

253. BENHOLM.—Scarlet fever of a mild type prevalent, following on an outbreak of whooping-cough.

259. FORDOUN.—There has been a large decrease in births, only thirty having been registered during the past year, compared with an average of fifty for the past ten years.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

296. KINNELL.—The growing habit of celebrating marriages in the public halls of the nearest town or village instead of in the home of the bride's parents, causes a diminution of the number registered in such parishes as this.

13. Perth.

326. ABERNETHY.—For the first time in this parish the number of deaths registered in the past year exceeds the number of births.

330. AUCHTERGAVERN.—The preponderance of the male over the female births registered during the year is noteworthy, the numbers being 17 boys and 7 girls.

334. BLAIR ATHOLL.—Scarlet fever has broken out in one of the outlying parts of the parish. No fatal cases as yet.

339. CLUNIE.—Two of the four deaths registered during the year were due to carcinoma.

376. LOGIERAIT.—Five of the nine deaths registered took place in the Atholl, Weem, and Breadalbane Combination Poorhouse, all being of elderly people. Another of the deaths registered was that of a pauper lunatic, whose settlement was in another district.

14. Fife.

429. FERRY-PORT-ON-CRAIG.—The number of births registered during the year is the lowest for 45 years. During that period the population has increased by over 1800.

440. KINGLASSIE.—Four of the deaths registered took place at the Fever Hospital.

451. NEWBURN.—The illegitimate child whose birth was registered was legitimated by the subsequent marriage of the parents.

458b. TULLIALLAN.—Four of the seven deaths were of persons whose ages ranged from 62 to 81 years.

V. WEST-MIDLAND DIVISION.

17. Stirling.

491. STRATHBLANE.—The number of deaths—one for the quarter and six for the year—is unusually low, and is probably unprecedented.

19. Argyll.

Mainland.

515. KILBRANDON and KILCHATTAN.—Birth-rate for the year exceedingly low. The dulness of the slate trade, the principal industry, has caused some emigration from the district.

517 (2). DALAVICH.—There has been only one marriage registered in this parish in twelve years, parties going elsewhere for the ceremony.

526. LOCHGILFHEAD.—The deaths of several aged persons were registered during the quarter, the oldest being aged 96 years.

528. MORVERN.—Though the parish was free from epidemics, deaths are above the normal. The severity of the weather was probably a contributory cause of some deaths. Of the seven deaths registered, four were of persons whose ages ranged from 75 to 85 years.

20. Bute.

553 (2). KILBRIDE.—Of the seven deaths registered, four were of persons whose ages ranged from 65 to 82 years. One of the remaining deaths was that of a male aged 56 years, who died from exposure during the severe frost at the beginning of December.

VI. SOUTH-WESTERN DIVISION.

21. Renfrew.

567 (2). GOUROCK.—Of the sixty-nine deaths registered, thirty-eight occurred in Smithston Poorhouse and Asylum, and nine in the Combination Fever Hospital. These institutions are included in the area now annexed to the Burgh of Greenock.

22. Ayr.

577 (1). AUCHINLECK.—Four of the deaths registered were caused by an explosion of fire-damp.

578 (3). ALLOWAY.—Of the twenty-six deaths registered, twenty-one occurred in Ayr District Asylum. Of the remainder, three were of persons whose ages ranged from 70 to 85 years, while a fourth was that of an infant.

589. DREGHORN.—The death-rate has been the lowest recorded for 52 years, being equal to 8·8 per thousand for the whole year.

593. GALSTON.—The death-rate for the year has been the lowest recorded since the adoption of the Registration Act in 1855.

603 (1). NEWMILNS.—It is a remarkable fact that during 1909 only forty-one deaths were registered, in spite of epidemics of scarlet fever and enteric fever, while in the same period forty-five marriages were registered.

607. MUIRKIRK.—Deaths registered show an increase of seven compared with the corresponding quarter of last year. The oldest person whose death was registered was aged 72 years.

23. Lanark.

639. DALZIEL (Motherwell portion).—Births, deaths, and marriages are all less than in 1908, but the most noticeable decrease is in the number of deaths, only 649 being registered in 1909 as compared with 803 in 1908, a decrease of 154.

VII. SOUTH-EASTERN DIVISION.

25. Edinburgh.

674. BORTHWICK.—Of the four deaths registered, three were of persons aged 77, 83, and 86 years respectively. The fourth death was that of a child who died from hooping-cough.

677. COLINTON.—Seven of the eight illegitimate births registered in November occurred in Craiglockhart Poorhouse.

685 (4). EDINBURGH, ST GILES.—Marriages registered show a decrease of fifty-four compared with the figure for the corresponding quarter of last year, and of sixty-eight compared with the average of the totals for the last five quarters. Decrease has occurred among the working classes generally, and may be attributed to the uncertainty of employment.

691. LASSWADE.—Two of the deaths recorded were of persons aged 97 and 88 years respectively.

26. Haddington.

717. PRESTONKIRK.—Of the seven deaths registered, three occurred in the County Combination Poorhouse.

723. WHITEKIRK.—The male death recorded in November was that of an unknown man found on the beach. One of the deaths was that of the second oldest parishioner, aged 85 years.

27. Berwick.

730. CHIRNSIDE.—Measles prevalent.

736. EARLSTON.—During the whole of the quarter, scarlet fever has been prevalent in the parish, but no fatal case has occurred. It is remarkable that the majority of those affected have been grown up persons.

737. ECCLES.—Outbreak of scarlet fever in December. Many cases, but type mild, and no deaths. School closed.

738. EDROM.—One death from diphtheria, a solitary case.

742. GORDON.—In the latter half of December there was an epidemic of mumps, the public school being closed in consequence. This is the first epidemic for about fifteen years.

746. LADYKIRK.—Only two deaths in the year, of persons aged 68 and 72 years respectively.

749. LEGERWOOD.—Several cases of scarlet fever presently in the parish.

VIII. SOUTHERN DIVISION.

30. Roxburgh.

783. BOWDEN.—One of the two deaths was accidental.

785 (2). KIRKTON.—Epidemic of hooping-cough, but no fatal cases. School closed for five weeks.

795. LILLIESLEAF.—The deaths registered were those of persons aged 73, 76, and 78 respectively.

799 (1). MELROSE.—Of the twenty-four deaths, eleven occurred in the District Asylum.

809. TEVIOTHEAD.—No deaths have been registered since June 1908.

31. Dumfries.

813a. APPELGARTH.—The total number of births, deaths, and marriages is the smallest recorded for the past 40 years.

817. CUMMERTREES.—The average age in eight of the ten deaths registered during 1909 was 61½ years.

830. HOLYWOOD.—One of the deaths was that of a widow, who died within a fortnight of the attainment of her 100th year.

840. LOCHMABEN.—Absolutely the lowest death-rate, both for the quarter and for the year, recorded since Registration Act came into operation.

854. WESTERKIRK.—The two deaths registered were of persons aged 82 and 86 years respectively. Influenza has been very prevalent.

32. Kirkcudbright.

874. KIRKPATRICK-DURHAM.—For the first time since the Registration Act came into force, no marriages were registered during the year. The death-rate for the same period is also the lowest on record.

876. MINNIGAFF.—The ages of the two persons whose deaths were registered were 74 and 84 years respectively.

882. TROQUEER.—Scarlet fever prevalent, but no deaths therefrom.

33. Wigtown.

891. LESWALT.—Deaths registered during the year numbered three, the death-rate being the lowest ever recorded. The corresponding figure for last year is twenty-two, and the average for the past 55 years is seventeen. One of the deaths was a case of suicide.

INDEX TO THE DISTRICTS.

*The Figures refer to the Numbers of the Districts in the preceding Tables of Births, Deaths, and Marriages, these being numbered consecutively from 1 to 901.**

Abbey, . . . 559	Ardersier, . . . 91	Barrhead and	Bridge of Weir, 559	Carriden, . . . 663
Abbey St Bath-	Ardnamurchan, 505	Levern, . . . 572	Bridgeton, . . . 644	Carrington, . . . 675
ans, . . . 726	Ardoch, . . . 328	Barrhill, . . . 582	Brodick, . . . 553	Carsphairn, . . . 860
Abbotshall, . . . 399	Arrossan, . . . 576	Barry, . . . 274	Broughton, . . . 758	Carstairs, . . . 633
Abdie, . . . 400	Arisaig, . . . 91	Barvas, . . . 86	Brydekirk, . . . 813	Castleton, . . . 784

Ardchattan, . . . 504	Barr, . . . 580	Brechin, . . . 275	Carnock (Fife), . . . 414	Craik, . . . 417
Ardclach, . . . 120	Barra, . . . 108	Bressay, . . . 1	Carnwath, . . . 632	Crailing, . . . 786

* The actual number of Districts is 1079—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 18 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.

Cramond, . . . 679	Duddingston, . . . 684	Farr, . . . 50	Glenmuick, Tul-lich, etc., . . . 201	Jedburgh, . . . 792
Cranshaws, . . . 734	Duffus, . . . 131	Fauldhouse, . . . 673	Glenorchy, . . . 512	Johnstone (Dumfries), . . . 832
Cranston, . . . 680	Duirinish, . . . 110	Fearn, . . . 64	Glenrinnies, . . . 155	Johnstone and Elderslie (Renfrew), . . . 573
